"Sweeping between Prague during World War II and modern day Los Angeles, this deeply moving debut follows a young Jewish man in 1934 who falls in love and joins the circus as the country descends into war. Decades later, a young boy seeks out the now cynical, elderly magician in the hopes that his spells might keep his family together. Prague, 1934: The fifteen-year-old rabbi's son Moshe Goldenhirsch marvels at the legendary circus magician known as the Half-Moon Man. Unexpectedly, he falls madly in love with the magician's delightful assistant, spurring him to run away from home to join the circus, which is slowly making its way to Germany as war looms on the horizon. Soon, he becomes a world-renowned magician known as the Great Zabbatini, even sought after by Adolf Hitler. But when Moshe is discovered to be a Jew, only his special talent can save him from perishing in a concentration camp. Los Angeles, 2007: Ten-year-old Max Cohn is convinced that magic can bring his estranged parents back together before they divorce. So one night he climbs out of his bedroom window in search of the Great Zabbatini, certain this powerful magician has the power to reunite his family. Perfect for fans of *All the Light We Cannot See* and *The Nightingale*, this radiant historical novel is both a deeply moving story of a small boy who believes in everything and an old man who believes in nothing--as well as a gripping and heartfelt tale about the beauty and fragility of life"--

Are you truly in danger or has your brain simply "tricked" you into thinking you are? In *The Worry Trick*, psychologist and anxiety expert David Carbonell shows how anxiety hijacks the brain and offers effective techniques to help you break the cycle of worry, once and for all. Anxiety is a powerful force. It makes us question ourselves and our decisions, causes us to worry about the future, and fills our days with dread and emotional turbulence. Based in acceptance and commitment therapy (ACT) and cognitive behavioral therapy (CBT), this book is designed to help you break the cycle of worry. Worry convinces us there's danger, and then tricks us into getting into fight, flight, or freeze mode—even when there is no danger. The techniques in this book, rather than encouraging you to avoid or try to resist anxiety, shows you how to see the trick that underlies your anxious thoughts, and how avoidance can backfire and make anxiety worse. If you're ready to start observing your anxious feelings with

She wasn't who I was expecting, and I guess she could say the same, because Danni made it very clear she wasn't interested in me or my reasons for lying. The fact that she was my best friend's little sister only complicated an already impossible situation. I didn't intend on tricking her. I just wanted her to give me a chance, to discover who I am underneath the ink. She can fight me all she likes because we both know that I'm exactly her type. She just doesn't know it yet.
