A systematic guide to spelling, grammar, and usage, designed to increase vocabulary skills

The author describes her love affair with reclusive author J.D. Salinger, which began at the age of eighteen, discussing her relationship with Salinger and her troubled but creative youth.

This book takes the reader on an adventure quest through Dr. Bucke's amazing life: from his boyhood in London, Ontario, his near-death experience in the U.S. Rockies, his medical studies at McGill University, his marriage and fatherhood, a personal enlightenment experience and his eventual appointment as Superintendent of the London Asylum located a stone's throw from his boyhood home. But the highlight of the journey is the development of his life-changing love of, and devotion to, the great poet Walt Whitman.

After injuring his spinal cord in an accident, Jasper the dachshund was unable to move his back legs. In 2012, scientists at Cambridge University tried an unusual experiment to help Jasper walk again. They took special cells from inside Jasper's nose and transplanted them into his spine. Why? Scientists knew that these cells constantly regrow to keep the nose working. Could these same cells somehow repair Jasper's damaged spinal cord? This is just one of many fascinating stories found in Science Dogs. For more than a century, dogs like Jasper have played a key role in scientific discoveries, from the invention of the pacemaker to a cancer-sniffing machine modeled after a dog's nose. With dramatic, full-color photos, this book is sure to appeal to dog lovers everywhere.
