LIFE-SPAN VIEW, Seventh Edition. With its comprehensive, succinct, and applied coverage, the text has proven its ability to capture students' interest while introducing them to the issues, forces, and outcomes that make us who we are. Robert V. Kail's expertise in childhood and adolescence, combined with John C. Cavanaugh's extensive research in gerontology, result in a book with a rich description of all life-span stages and important topics. A modified chronological approach traces development in sequential order from conception through late life, while also dedicating several chapters to key topical issues. This organization also allows the book to be relatively briefer than other texts, a benefit given the

and multicultural coverage, the innovative pedagogical learning system, and the balance between research and real-life applications that have made this text a favorite of students and professors alike. In the warmly-written and engaging style that is their hallmark, Papalia, Olds, and Feldman continue to provide a chronological view of lifespan development. The tenth edition expands the coverage of cultural and historical influences on development, features the latest research, and introduces marginal callouts integrating the "LifeMap" Student CD-ROM with key concepts in the text.

VIEW, 2nd Edition fills the need for a shorter text that emphasizes the essential, defining features of modern research and theory in human development. Using a modified chronological approach and emphasizing the biopsychosocial framework, the text provides: a readable account of human development across the life span; conceptual foundations that enable students to become critical interpreters of developmental information; and an introduction to relevant research and its application to key issues. The text also emphasizes the application of human development research across diverse professional settings, making it ideal for students who are pursuing a career related to psychology or areas such as education, health, and

On the basis of a theologically grounded understanding of the nature of persons and the self, Jack O. Balswick, Pamela Ebstyn King and Kevin S. Reimer present a model of human development that ranges across all of life's stages. This revised second edition engages new research from evolutionary psychology, developmental neuroscience and positive psychology.
