is a milestone document in the history of
human rights.

Universal Declaration of Human Rights |
United Nations

“Human rights” as a concept is a Western,
Eurocentric creation. de Benoist describes
how human rights arose from a confluence of
philosophical and historical events. The
political groundwork began with the
Westphalian Conferences, following years of
wars where the European countries were
tearing each other up.

Human Rights For All Beyond The Headlines
However, most States continue to think of human rights with a national mindset, thus overlooking their obligation to avoid causing harm and to protect human rights of people outside of their borders. As a result, the current international human rights regime suffers from major gaps and most importantly, many victims of human rights violations remain deprived of their right to justice and ...
