cleanliness of ventilation systems (TR19) and 2 Edition | October 2013 Building & Engineering Services Association 47 of 84 E) stipulate that kitchen extract systems should be kept clean to minimise fire and other risks. This guide to good practice includes assistance on identifying the

Specific considerations for kitchen extract systems

Thorough kitchen extract cleaning is essential for every catering facility, which is why the BESA developed the TR19 HVCA guide to good practice. It is the standard of hygiene your kitchen extract system should meet. Following TR19 guidelines will ensure your ducting and extract system is safe and at low risk of catching or spreading fire.
