Historic-archaeological ThrillerA secret hidden for centuries, places soaked with magic, a tormented love story, an occult sect: these are the ingredients of a novel where history and irony, archaeology and mystery are mixed to create a captivating story. A fascinating trip throughout space and time, from ancient romans to medieval crusades, from the byzantine empire to the Renaissance House of Medici, until today.Tarsus (Turkey), 8 July 2010 A university professor finds in his excavations what many looked for in vain: the tomb of Julian the Apostate, the philosophe emperor. But the sepulchre is empty and right after the discovery the archaeologist is found dead. Has he been murdered? Who stole Julian's mortal remains? Where is the famous treasure that was buried with the roman emperor?That's from here that the adventure starts for Francesco Speni, a bank employee passionate about history, who, with the help of his beloved Chiara, investigates among ancient sites and ciphered codes. A healing path using the power of dreams, theater, poetry, and shamanism
Shows how psychological realizations can cause true transformation when manifested by concrete poetic acts
Includes many examples of the surreal but successful actions Jodorowsky has prescribed to those seeking his help
While living in Mexico, Alejandro Jodorowsky became familiar with the colorful and effective cures provided by folk healers. He realized that it is easier for the unconscious to understand the language of dreams than that of rationality. Illness can even be seen as a physical dream that reveals unresolved emotional and psychological problems. Psychomagic presents the shamanic and genealogical principles Jodorowsky discovered to create a healing therapy that could use the powers of dreams, art, and theater to empower individuals to heal wounds that in some cases had traveled through generations. The concrete and often surreal poetic actions Jodorowsky employs are part of an elaborate strategy intended to break apart the dysfunctional persona with whom the patient identifies in order to connect with a deeper self. That is when true transformation can manifest. For a young man who complained that he lived only in his head and was unable to grab hold of reality and advance toward the financial autonomy he desired, Jodorowsky gave the prescription to paste two gold coins to the soles of his shoes so that all day he would be walking on gold. A judge whose vanity was ruling his every move was given the task of dressing like a tramp and begging outside one of the fashionable restaurants he loved to frequent while pulling glass doll eyes out of his pockets. The lesson for him was that if a tramp can fill his pockets with eyeballs, then they must be of no value, and thus the eyes of others should have no bearing on who you are and what you do. Taking his patients directly at their words, Jodorowsky takes the same elements associated with a negative emotional charge and recasts them in an action that will make them positive and enable them to pay the psychological debts hindering their lives.

From stunning artwork and sample spreads to influential colors and music, this groundbreaking book draws back the curtain to reveal the true legacies of Waite and Smith. Praise: "Astonishing revelations of Pixie Smith's contributions to the Tarot! Masterful, and not to be missed."—Mary K. Greer, author of The Complete Book of Tarot Reversals

Anesthetized, encapsulated, dormant. Is that a zombie? No, that's today's human being. What? Does a human have the same characteristics as a zombie? Unfortunately yes! We unconsciously continue to follow a path that is not ours, even if the cancer of the System is already devouring us. Remedies and gurus are on the rise, but paradoxically, even depressed, aimless people who get intoxicated with coffee, drugs, alcohol, are tripling. Why is that? Technical and scientific progress has unlocked social rules that were not evident before. The human being tries to contrast this state of things by acting on the effects, but never on the causes. This is exactly how our decline began. But is there a solution? Of course: to trace a Knowledge capable of accompanying the human being towards personal freedom. All the oldest tools of Wisdom and Awareness convey traces of this teaching. What Guarino offers is a unique opportunity: to discover the practical model of Knowledge coded in the Tarot in order to get out of a System that deforms the human being in a subtle and stereotyped way.
