Finally, there's a book on that mysterious time. This is a fascinating subject, of a time when Walt's Yes Men fought to keep the company alive. Walt filmed several short movies to be shown to the executives every six months, giving them guidance where the company was to go, and what they were to do.

As kids, we all had passions -- something we loved doing, experienced with our friends, dreamed about every spare moment. For Jay Atkinson, who grew up in a small Massachusetts town, it was hockey. When Bobby Orr scored the winning goal in the 1970 Stanley Cup Finals against the St. Louis Blues, Atkinson became a fan for life. In 1975, he played on the first Methuen Rangers varsity hockey team. Once and always a rink rat, Atkinson still plays hockey whenever and wherever he can. Twenty-five years after he played for the Rangers, Atkinson returns to his high school team as a volunteer assistant. Ice Time tells the team's story as he follows the temperamental star, the fiery but troubled winger, the lovesick goalie, the rookie whose father is battling cancer, and the "old school" coach as the Rangers make a desperate charge into the state tournament. In emotionally vivid detail, Ice Time travels into the rinks, schools, and living rooms of small-town America, where friendships are forged, the rewards of loyalty and perseverance are earned, and boys and girls are transformed into young men and women. Along the way, we also meet his five-year-old son, Liam, who is just now learning the game his father loves. Whether describing kids playing a moonlit game on a frozen swamp or the crucible of team tryouts and predawn bus rides that he endured himself, Atkinson carves out the drama of adolescence with precision and affection. He takes us onto the ice and into the heart of a town and a team as he explores the profound connection between fathers and sons, and what it means to go home again.

An account of this team's journey, with their forty-foot sailboat home, from Sweden to the Antarctic

An epic debut novel about a lovelorn eighteenth-century Russian noble, cursed with longevity and an immunity to cold, whose quest for the truth behind his condition spans two thrilling centuries and a stunning array of historical events. The Empress Anna Ioannovna has issued her latest eccentric order: construct a palace out of ice blocks. Inside its walls her slaves build a wedding chamber, a canopy bed on a dais, heavy drapes cascading to the floor—all made of ice. Sealed inside are a disgraced nobleman and a deformed female jester. On the empress's command—for her entertainment—these two are to be married, the relationship consummated inside this frozen prison. In the morning, guards enter to find them half-dead. Nine months later, two boys are born. Surrounded by servants and animals, Prince Alexander Velitzyn and his twin brother, Andrei, have an idyllic childhood on the family's large country estate. But as they approach manhood, stark differences coalesce. Andrei is daring and ambitious; Alexander is tentative and adrift. One frigid winter night on the road between St. Petersburg and Moscow, as he flees his army post, Alexander comes to a horrifying revelation: his body is immune to cold. J. M. Sidorova's boldly original and genrebending novel takes readers from the grisly fields of the Napoleonic Wars to the blazing heat of Afghanistan, from the outer reaches of Siberia to the cacophonous streets of nineteenth-century Paris. The adventures of its protagonist, Prince Alexander Velitzyn—on a lifelong quest for the truth behind his strange physiology—will span three continents and two centuries and bring him into contact with an incredible range of real historical figures, from Mary Shelley, the author of *Frankenstein*, to the licentious Russian empress Elizaveta and Arctic explorer Joseph Billings. *The Age of Ice* is one of the most enchanting and inventive debut novels of the year.
