We have an Idylis IF71CM33NW, 7.1 cubic foot chest freezer. It failed under extended warranty, and Lowes paid us for it. The tech who troubleshoot it said the compressor relay assembly had gone bad and that it would not be hard or expensive to replace. I wouldn't mind trying to repair it, rather than throwing it away, but I can't track down the name-brand and/or generic replacement. The part ...

Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender “Ode to the Hymen,” Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as “Ode to My Sister,” “Ode of Broken Loyalty,” “Ode to My Whiteness,” “Blow Job Ode,” and “Ode to the Last Thirty-Eight Trees in New York City Visible from This Window,” Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Written for Introductory Sociology and Sociology of Popular Music courses, the second edition of Understanding Society through Popular Music uses popular music to illustrate fundamental social institutions, theories, sociological concepts, and processes. The authors use music, a social phenomenon of great interest, to draw students in and bring life to their study of sociology. The new edition has been updated with cutting edge thinking on and current examples of subcultures, politics, and technology.

In 1945 Britain was the world's leading designer and builder of aircraft - a world-class achievement that was not mere rhetoric. And what aircraft they were. The sleek Comet, the first jet airliner. The awesome delta-winged Vulcan, an intercontinental bomber that could be thrown about the sky like a fighter. The Hawker Hunter, the most beautiful fighter-jet ever built and the Lightning, which could zoom ten miles above the clouds in a couple of minutes and whose pilots rated flying it as better than sex. How did Britain so lose the plot that today there is not a single aircraft manufacturer of any significance in the country? What became of the great industry of de Havilland or Handley Page? And what was it like to be alive in that marvellous post-war moment when innovative new British aircraft made their debut, and pilots were the rock stars of the age? James Hamilton-Paterson captures that season of glory in a compelling book that fuses his own memories of being a schoolboy plane spotter with a ruefully realistic history of British decline - its loss of self confidence and power. It is the story of great and charismatic machines and the men who flew them: heroes such as Bill Waterton, Neville Duke, John Derry and Bill Beaumont who took inconceivable risks, so that we could fly without a second thought.

When there are no heroes left, it's up to the villains to save the world. Even the best swordsman is one bad day away from a corpse. It's a lesson Blademaster Jezzet Vel'urn isn't keen to learn. Chased into the Wilds by a vengeful warlord, Jezzet makes it to the free city of Chade. But instead of sanctuary all she finds are more enemies from her past. Arbiter Thanquil Darkhart is a witch hunter for the Inquisition, on a holy crusade to rid the world of heresy. He's also something else: expendable. When the God Emperor gives Thanquil an impossible task, he knows he has no choice but to venture deep into the Wilds to hunt down a fallen Arbiter. The Black Thorn is a cheat, a thief, a murderer and worse. He's best known for the killing of several Arbiters and every town in the Wilds has a WANTED poster with his name on it. Thorn knows it's often best to lie low and let the dust settle, but some jobs pay too well to pass up. As their fates converge, Jezzet, Thanquil, and the Black Thorn will need to forge an uneasy alliance in order to face their common enemy. Pick up this fantasy spaghetti western today!

Embattled former detective Clint Wolf is the newly appointed police chief for Mechant Loup, a small swampy town in southeast Louisiana. Usually a quiet town, the tranquility of the place is shattered when a human arm is found in the jaws of an alligator. Once it's determined the arm belongs to a reputable business owner, the race is on to find the man and figure out what happened to him. Little does Clint know that solving the case could unearth a plot so evil it would go down as the worst event in Louisiana history ... and he might not live to see it.(NOTE: Originally published on December 6, 2015 by Amber Quill Press, LLC)

"Absorbing...Mitchell's novel [is] the real thing." —Boston Globe In the summer of 1918, with the Germans threatening Paris, Edward Steichen arrives in France to photograph the war for the American army. There, he finds a country filled with poignant memories for him: early artistic success, marriage, the birth of two daughters, and a love affair that divided his family. Told with elegance and transporting historical sensitivity, Emily Mitchell's first novel captures the life of a great American artist caught in the reckoning of a painful past in a world beset by war. A Finalist for the New York Public Library's Young Lion's Fiction Award and named a Best Book of the Year by the Providence Journal, the Austin-American-Statesman, and the Madison Capital Times.

[Siren Menage Everlasting: Erotic Paranormal Menage a Trois Romance, M/F/M, werewolves, HEA] Gabrielle "Gabby" Caldwell is going crazy waiting on her mates to claim her. Her wolf is retreating, believing they have rejected her. Levi and Aaron Shoewater want Gabrielle as their mate, but something is blocking Levi's mating heat. Without it, his wolf won't mark her, and they're slowly losing Gabrielle while they search for the answer. To make matters worse, humans are using magic to invade their land and take their wolves. As future Alpha, Levi feels pressured to stop them and capture whoever is helping them, but what about his mate? An old ally is called on for help, but while the three sisters who arrive are able to counter the magic the humans have stirred up, they prove to cause a stir of their own. Levi and Aaron must hold their pack together despite their private issue with claiming their mate. The answers are right in front of them, but sometimes good intentions cause more problems in the long run. ** A Siren Erotic Romance

This book is a collection of papers from The American Ceramic Society's 35th International Conference on Advanced Ceramics and Composites, held in Daytona Beach, Florida, January 23-28, 2011. This issue includes papers presented in the 8th International Symposium on Solid Oxide Fuel Cells: Materials, Science, and Technology on topics such as Cell and Stack Development; Electrochemical/Mechanical/Thermal Performance; Electrodes; Interconnects; Novel Cell/Stack Design and Processing; and Reliability/Degradation.
