natural resources management, energy, skills development, urban development, transport and water, and sanitation and hygiene. The publication identifies practical ways in which gender equality, social inclusion, and women's empowerment approaches can be integrated into each of these sectors. The diagnostic aims to inform the GeSi initiatives of the Government of Nepal, the Asian development Bank, and other development partners of the country.

This report analyses the impacts of financial support to fisheries from a sustainable

In June 2014, FAO member-states endorsed the Voluntary Guidelines for Securing Sustainable Small-Scale Fisheries (SSF Guidelines). These Guidelines are one of the most significant landmarks for small-scale fisheries around the world. They are comprehensive in terms of topics covered, and progressive, with their foundations based on human rights and other key principles. It can be anticipated that implementing the SSF Guidelines, whether at

local, national, or regional levels, will be challenging. This book contains in-depth case studies where authors discuss the extent to which the Guidelines can help improve the realities of small-scale fishing men and women globally and make their livelihoods and communities more secure. This will require policy intervention and innovation, along with contributions of civil society organizations and academia. However, most of all it will necessitate the empowerment of fishing people so that they can become active participants in decision making on matters where their well-being and human rights are

at stake. By endorsing the SSF Guidelines, states have committed themselves to support and facilitate this development. This book asks whether states can successfully “walk the talk,” and provides advice as to how they can do so. The collection of case studies sets the platform for an interactive dialogue space for researchers, policy makers, civil society and small-scale fishing communities to start the conversation about the monitoring and evaluation of the implementation of the SSF Guidelines at local, national, regional and global levels. An added value is that it helps add focus to

our work as civil society activists involved in ensuring the application of the SSF Guidelines. Naseegh Jaffer - General Secretary, World Forum of Fisher People (WFFP) This collection offers many ways in which institutions enabling small-scale fisheries can protect and promote sustainability, food security, customary tenure, self-management, and market access, while fostering such benefits as ecosystem-based management, protected areas, incorporation of local knowledge, and poverty alleviation. Comprehensively laying out the concept of crimilegality, this book presents a novel perspective on the relationship between what is conventionally termed organised crime and political order in the contemporary developing world. In hybrid crimilegal orders the moral, normative and social boundaries between legality and illegality-criminality

are blurred, and through the violation of the official law, the illegal-criminal sphere of social life becomes legitimate and morally acceptable, while the legal turns illegitimate and immoral. Several examples of crimilegality and crimilegal governance in Colombia and Nigeria, including in relation to armed conflict termination, are used to illustrate these complex processes.
