Cateora and Graham's International Marketing is far and away the best selling text in the field, with a pioneering approach to making the material accessible and relevant that has become the standard by which other books are judged. Providing a well-rounded perspective of international markets that encompasses history, geography, language, and religion as well as economics, Cateora helps students to see the cultural and environmental uniqueness of any nation or region. The 14th edition reflects all the important events and innovations to affect global business within recent years, while including several new and updated technological learning tools.

International Marketing addresses global issues and describes concepts relevant to all international marketers, regardless of their international involvement. Notwithstanding the extent of global perspective that firms may have, they are affected by the competitive activity in the global marketplace. It is this perspective that the authors bring into this edition of the text. The text focuses on the strategic implications of competition in different markets. The environmental and cultural approach to international marketing permits a truly global orientation. Thus the reader's horizon is not limited to any specific nation but the text provides an approach and framework for identifying and analyzing the important cultural and environmental uniqueness of any nation or global region. Salient Features: • 10 Indian cases included in the book • New sections on negative impact of new communication tools, intellectual property

Expanding an organisation internationally presents both opportunities and challenges as marketing departments seek to understand different buying behaviours, power relations, preferences, loyalties and norms. International Marketing offers a uniquely adaptable strategy framework for firms of all sizes that are looking to internationalise their business, using Carl Arthur Solberg's tried and tested Nine Strategic Windows model. Compact and readable, this practical text offers the reader insights into: The globalisation phenomenon Partner relations And Strategic positioning in international markets. Solberg has also created a brand new companion website for the text, replete with additional materials and instructor resources. This functional study, complete with case studies that demonstrate how the theory translates to practice, is an ideal introduction to international marketing for advanced undergraduates and postgraduates in business and management. It also offers a pragmatic toolkit for managers and marketers that are seeking to expand their business into new territories.

Marketers now have the opportunity to invest in more data research and take advantage of social networking. The new 12th edition of "Marketing Research" shows marketers how to utilize these techniques to compliment traditional methods. The book focuses on international market research and incorporates new case studies to present the latest information in the field. Marketers will also be able to access the books Web site for a list of readings, links to other key sites, sample datasets for analysis, and practice questions after each chapter.

This is the first-ever book about product and country images. It goes considerably beyond what was known until now about these images on buyer behavior and international market strategy. Thousands of companies use country identifiers as part of their international marketing strategy and hundreds of researchers have studied the ways in which these identifiers influence behavior. As markets become more international, the more prominently the origin of products will figure in sellers—and buyers—decisions. The time is ripe for practitioners and academicians to delve into the insights offered in this seminal volume so as to better prepare for meeting the competitive challenges of the global marketplace. National stereotyping and consumer biases in favor or against countries, based on image, have been known for some time to influence their marketplace decisions. Businesspeople who want to learn how to use country identifiers effectively, when to use them and when to avoid them, and how country images affect the behavior of consumers in their target markets will want to read this book cover to cover. Product-Country Images discusses the nature and role and influence of product-country images in international marketing strategy and consumer behavior. It is a wide-ranging and state-of-the-art book offering specific information and case studies to further understanding of the various aspects of this complex topic. Written

by the world's preeminent researchers in the field from both academic and business sectors--a total of twenty-nine researchers from eleven countries--Product-Country Images presents the work of some of the best minds in the area--Johansson, Morello, Nebenzahl and Jaffe, Crawford and Lumpkin, Yaprak, Liefeld, and Wall, and the editors, Papadopoulos and Heslop, who have also authored some of its chapters. The chapters cover areas related to the main theme from both theoretical and practical perspectives and address questions of international marketing strategy, public policy, and research methodology. The subject is treated at a level suitable for business executives, public policymakers, academic researchers, and university students. Generally, the influence of product country images is so pervasive that this will be an indispensable reference and guidebook to anyone interested in understanding better, and/or enhancing the effectiveness of, international consumer behavior, international marketing, and international marketing strategy. Academic researchers specializing in country-product images, international marketing, and other fields, such as decisionmaking, cultural anthropology, international behavior, and perhaps most importantly, social psychology for international relations, will find readily applicable information and new directions for further research. International business marketing practitioners and public policymakers will find the practical information on the role and importance of country image in attracting foreign investment, promoting a nation's exports, protecting domestic markets from imports, and capitalizing on major international events for promoting national image immediately useful in formulating strategies and policies. International marketing/business students will be better prepared for a competitive world from being exposed to this field of knowledge and its implications which are relevant to many subdisciplines. The made-in notion is a matter of tremendous importance in international marketing strategy, public policymaking, and research. With this in mind, editors Papadopoulos and Heslop take special care to achieve a blend of
