To ace a job interview, you need to give the right answers--and ask the right questions. 101 Smart Questions to Ask on Your Interview is for every job candidate who thinks "Do you have any questions for me?" marks the end of an interview. In Ron Fry's view, it marks the beginning of the last, and perhaps most important, interview phase, one that's so important that failing to properly prepare for it can undo all your hard work, including providing great answers to tough questions. It's your moment to shine--to show off the depth and breadth of your research, to remind the interviewer of how perfectly your credentials fit the job description, and to actually ask for the job! Fry shows you how to take charge of the interview process, presenting yourself as the self-managing, versatile, and confident candidate most employers are seeking. He demonstrates how to use the interview process to sell the company on you while obtaining the information necessary to make sure you are sold on them. From what to ask, when to ask it, and the kinds of answers to expect, 101 Smart Questions to Ask on Your Interview gives all candidates, from first-timers to seasoned pros, the practical information and advice they need to ace entire interviews . . . and get their dream jobs.

[Note: eBook version of latest edition now available; see Amazon author page for details.] THIS IS A MUST READ! It is the first and the original book of quantitative questions from finance job interviews. Painstakingly revised over 25 years and 20 editions, *Heard on The Street* has been shaped by feedback from many hundreds of readers. With well over 60,000 copies in print, its readership is unmatched by any competing book. The revised 20th edition contains over 225 quantitative questions collected from actual job interviews in investment banking, investment management, and options trading. The interviewers use the same questions year-after-year, and here they are with detailed solutions! This edition also includes over 225 non-quantitative actual interview questions, giving a total of more than 450 actual finance job interview questions. There is also a recently revised section on interview technique based on Dr. Crack's experiences interviewing candidates and also based on feedback from interviewers worldwide. The quant questions cover pure quant/logic, financial economics, derivatives, and statistics. They come from all types of interviews (corporate finance, sales and trading, quant research, etc.), and from all levels of interviews (undergraduate, MS, MBA, PhD). The first seven editions of *Heard on the Street* contained an appendix on option pricing. That appendix was carved out as a standalone book many years ago and it is now available in its revised fourth edition: *"Basic Black-Scholes"* (ISBN: 978-0-9941386-8-2). Dr. Crack did PhD coursework at MIT and Harvard, and graduated with a PhD from MIT. He has won many teaching awards, and has publications in the top academic, practitioner, and teaching journals in finance. He has degrees/diplomas in Mathematics/Statistics, Finance, Financial Economics and Accounting/Finance. Dr. Crack taught at the university level for over 25 years including four years as a front line teaching assistant for MBA students at MIT, and four years teaching undergraduates, MBAs, and PhDs at Indiana University. He has worked as an independent consultant to the New York Stock Exchange and to a foreign government body investigating wrong doing in the financial markets. His most recent practitioner job was as the head of a quantitative active equity research team at what was the world's largest institutional money manager.
