Infrastructure Finance: An Introduction Traditional economists are of the opinion that infrastructure is the heart of the economy . Empirical data clearly shows that given a choice, investors prefer to invest their money in countries whose infrastructure is more developed.

~~Infrastructure Finance: An Introduction~~

Infrastructure as a Service (IaaS) clouds are the foundation of cloud computing evolving as a natural progression from existing virtualization services. With resources on the server divided up amongst virtual machines, it became simple to offer those resources to a wider audience of users to maximize the computing power of the server while reducing the need for additional servers.
