Marcus Rashford and Jadon Sancho with abuse. Meanwhile, England captain Harry Kane took to Twitter to condemn the abuse, saying those behind it were 'not England fans' and that we 'don't want you'.

"The integrated solutions for Bodie, Kane, and Marcus' Investments set the standard for graduate/MBA investments textbooks. The unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. The content places greater emphasis on asset allocation and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective." --

Investments sets the standard as a graduate (MBA) text intended primarily for courses in investment analysis. The guiding principle has been to present the material in a framework that is organized by a central core of consistent fundamental principles and will introduce students to major issues currently of concern to all investors. In an effort to link theory to practice, the authors make their approach consistent with that of the CFA Institute. Many features of this text make it consistent with and relevant to the CFA curriculum. The common unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. Investments is also organized

around several important themes: The central theme is the near-informational-efficiency of well-developed security markets and the general awareness that competitive markets do not offer "free lunches" to participants. A second theme is the risk – return trade-off. Also, this text places great emphasis on asset allocation. Finally, this text offers a broad and deep treatment of futures, options, and other derivative security markets.
