ISO 19600, Compliance management systems - Guidelines, is a compliance standard introduced by the International Organization for Standardisation in April 2014. As its title suggests, it operates as an advisory standard and is not used for accreditation or certification. This standard was developed by ISO Project Committee ISO/PC 271, which was chaired by Martin Tolar. In recent times technical committee ISO/TC 309 has been created and the maintenance and future development of ISO 19600 will be u

This is where the need for an international standard that would help organizations meet their compliance obligations becomes apparent; and this is the reasoning based on which the ISO 19600 was created. The ISO 19600 guides organizations in developing a compliance management system to identify new and existing rules, to identify and reduce the risk of breaching the existing rules, and to quickly, effectively, and efficiently correct any breaches that might occur.
