Nuclear energy: Fusion plant backed by Jeff Bezos to be built in UK

The train() function defines an LBFGS() optimizer object using default parameter values except for max_iter (maximum iterations). The LBFGS() class has seven parameters which have default values: lr: ...

Volume 6.

The "Iter Italicum" serves as a useful reference work for scholars in the history of philosophy, the sciences, classical learning, grammar and rhetoric, Neolatin literature, historiography of the theory of the arts and of music and related subjects. By scanning the volume or through this index, scholars will be able to find source material for individual writers as well as for certain subjects, problems or themes. By indicating for each manuscript its location and shelf-mark, scholars will find it easier to order microfilms or to pursue more detailed studies of some of the manuscripts listed. The volumes should also prove useful for librarians as a reference for the holdings of their own or other libraries.

A cumulative index to the "Iter Italicum" volumes 1-6, encompassing the indexes previously published to the individual volumes. Reorganised for ease of use, this invaluable aid to users of Kristeller's monumental work will greatly facilitate access to the huge amount of information found here.

The "Iter Italicum" serves as a useful reference work for scholars in the history of philosophy, the sciences, classical learning, grammar and rhetoric, Neolatin literature, historiography of the theory of the arts and of music and related subjects. By scanning the volume or through this index, scholars will be able to find source material for individual writers as well as for certain subjects, problems or themes. By indicating for each manuscript its location and shelf-mark, scholars will find it easier to order microfilms or to pursue more detailed studies of some of the manuscripts listed. The volumes should also prove useful for librarians as a reference for the holdings of their own or other libraries.

Provides a list of Renaissance manuscripts (1350-1600), mostly in Latin or Italian, of philosophical, scientific, philological or literary content. The list is arranged by countries, cities, libraries, collections and shelf-marks, and is an indispensable work tool for Renaissance scholars.
