before she dies. Interspersed with the first person accounts by both Joel and Martha is the narrative of a certain village in South Sudan that has been brutalized by an ALFA raid. One of the young women, Farris, designs an unconventional plan to escape from her captives and save two younger children in a life-or-death race across the desert with her tormenters in close pursuit. It's Just My Nature is an intriguing web of connected stories that blends romance, adventure, theology, and geo-politics within an engaging and thought-provoking novel.

to the world of parenting. In her latest work, *The Child Whisperer*, she shines great light and understanding on what it takes to raise a child true to his or her nature. As the original Child Whisperer – and mother of five of her own grown children – Carol is esteemed by parents and children alike for her ability to resolve parent-child conflicts and struggles quickly, and increase cooperation and harmony. Her book turns longstanding parenting assumptions on their heads, and shows how parenting can be an even more intuitive, cooperative, fulfilling experience than any good parent has ever imagined.

A hugely entertaining and revealing guide to the history of type that asks, What does your favorite font say about you? Fonts surround us every day, on

street signs and buildings, on movie posters and books, and on just about every product we buy. But where do fonts come from, and why do we need so many? Who is responsible for the staid practicality of Times New Roman, the cool anonymity of Arial, or the irritating levity of Comic Sans (and the movement to ban it)? Typefaces are now 560 years old, but we barely knew their names until about twenty years ago when the pull-down font menus on our first computers made us all the gods of type. Beginning in the early days of Gutenberg and ending with the most adventurous digital fonts, Simon Garfield explores the rich history and subtle powers of type. He goes on to investigate a range of modern mysteries, including how Helvetica took over the world, what inspires the seeming ubiquitous use of

Trajan on bad movie posters, and exactly why the all-type cover of Men are from Mars, Women are from Venus was so effective. It also examines why the "T" in the Beatles logo is longer than the other letters and how Gotham helped Barack Obama into the White House. A must-have book for the design conscious, Just My Type's cheeky irreverence will also charm everyone who loved Eats, Shoots & Leaves and Schott's Original Miscellany.

conflict-free partner relationship that nourished you? Carol Tuttle, bestselling author of Remembering Wholeness, has found that a truly affluent life is rich in 6 areas: spiritual, mental, emotional, physical, financial, and in relationships. In her newest book, Mastering Affluence, she guides readers through 6 simple lessons (one for each area) to clear away longstanding patterns of struggle and replace them with ease and joy. Mastering Affluence doesn't just help its readers feel optimistic about having a better life. It guides them through a personal process to actively create one. Readers who follow Carol Tuttle's 6 Lessons and complete the activities throughout will come to the end of this book w

American Indian writer can't bring himself to write about nature, but is forced to reckon with colonial-white stereotypes, manifest destiny, and his own identity as a young, queer, urban-dwelling poet. A Best Book of the Year at BuzzFeed, Interview, and more. Nature Poem follows Teebs—a young, queer, American Indian (or NDN) poet—who can't bring himself to write a nature poem. For the reservation-born, urban-dwelling hipster, the exercise feels stereotypical, reductive, and boring. He hates nature. He prefers city lights to the night sky. He'd slap a tree across the face. He'd rather write a mountain of hashtag punchlines about death and give head in a pizza-parlor bathroom; he'd rather write odes to Aretha Franklin and Hole. While he's adamant—bratty, even—about his distaste for the word

“natural,” over the course of the book we see him confronting the assimilationist, historical, colonial-white ideas that collude NDN people with nature. The closer his people were identified with the “natural world,” he figures, the easier it was to mow them down like the underbrush. But Teebs gradually learns how to interpret constellations through his own lens, along with human nature, sexuality, language, music, and Twitter. Even while he reckons with manifest destiny and genocide and centuries of disenfranchisement, he learns how to have faith in his own voice.
