the engine as needed. In a manual transmission, that piece is called a clutch, and in an automatic transmission, it's a torque converter. In order to swap your automatic transmission for a manual (or vice versa if that's your objective), you'll need to disconnect the current coupling material and install the new one.

There is no transmission that can be adapted to the BW QuadraTrac with off the shelf parts. No one makes an adapter for a manual transmission. The only adapter out there is for a GM 700R4 automatic. For a manual trans, you would have to have a machine shop custom build you an adapter and that would not be cheap.
