JNC 8 Hypertension Guideline Algorithm Lifestyle changes: • Smoking Cessation • Control blood glucose and lipids • Diet Eat healthy (i.e., DASH diet) Moderate alcohol consumption Reduce sodium intake to no more than 2,400 mg/day •Physical activity Moderate-to-vigorous activity 3-4 days a week averaging 40 min per session.

**JNC 8 Hypertension Guideline Algorithm Initial Drugs of ...**

The JNC 8 guideline authors cite 2 trials that found no improvement in cardiovascular outcomes with an SBP target <140 mmHg compared with a target SBP level <160 mmHg or <150 mmHg. Despite this finding, the new guidelines do not disallow treatment to a target SBP <140 mmHg, but recommend caution to ensure that low SBP levels do not affect quality of life or lead to adverse events.
