Journal Rankings on Statistics and Probability

The Open Mathematics, Statistics and Probability Journal , a peer reviewed journal, is an important and reliable source of current information on developments in the field.

The Open Mathematics, Statistics and Probability Journal

Statistics & Probability Letters adopts a novel and highly innovative approach to the publication of research findings in statistics and probability. It features concise articles, rapid publication and broad coverage of the statistics and probability literature. Statistics & Probability Letters is a refereed journal. Articles will be limited to six journal pages (13 double-space typed pages) including references and figures.

Statistics & Probability Letters - Journal - Elsevier

The journal focuses on traditional areas such as statistical inference, multivariate analysis, design of experiments, sampling theory, regression analysis, re-sampling methods, time series, nonparametric statistics, statistical tools and analysis in human resources management, etc., and also gives special emphasis to established as well as emerging applied areas.
