Theoretical Mathematics and Applications (TMA) is a refereed journal devoted to the publication of original research papers and review articles in all areas of theoretical mathematics. The journal also is concerned with high-level mathematical investigations of certain applications in other fields of mathematics. It is published with both online and print versions.

(IJTAM) is a peer-reviewed journal on all areas of theoretical and applied mathematics and methods to solve problems in engineering, natural sciences, and business through mathematical, computational and statistical methods. Topics of interest include, but are not limited to: pure mathematics, applied sciences, approximation theory, computational simulation, control, differential equations, dynamics, inverse problems, modeling ...

[About: International Journal of Theoretical and Applied ...](#)

Theoretical and Mathematical Physics is a peer reviewed journal. We use a single blind peer review format, double or more blind in cases of problems. Our team of reviewers includes over 270 experts from many countries (Italy, Brazil, UK, France, USA, etc.).

International Journal of Applied Mathematics and Theoretical Physics (IJAMTP) publishes papers in the fields of applied mathematics and theoretical physics; these two fields are vital for basic sciences and engineering. The journal presents original papers, reviews and letters. The primary goal of this journal is to advance the understanding of applications in mathematics and physics by introducing mathematical techniques and applications to
