A manual describing how to operate the Kamewa S3 series waterjets using Rolls Royce bridge controls. This is a jet boat operators manual, describing how to drive a jet boat. An indispensable manual for masters. Volume 2 deals with the "whale tail" S4 series. This manual guides those new to the S3 water jet nozzle and bucket system in how to get the system up and running, and what effect moving the bridge controls will have on the movement of the vessel. Mangusta, Leopard, and Azimut - Bennetti are among the motor yacht manufacturers using the S3 series waterjet. The contents of the book are indispensable to avoid instant collision on the first manoeuvres and provide "a way" to those without one. If you have just been offered employment on a jet boat, and you don't know what to do or how it works, this book might just save you - and your job - on your first few times out. If you own a jet drive yacht and your captain is perfect in every way, but for lengthy and complicated manoeuvring sessions, perhaps sliding this book under his cabin door would be a diplomatic way to start the journey towards learning slick, safe and repeatable methods, guaranteed to please those on board and shore observers alike. The authors contact details for on board bridge tuition are included in the book.

This manual guides those new to the S4 water jet nozzle and bucket system in how to get the system up and running, and what effect moving the bridge controls will have on the movement of the vessel. Mangusta, Leopard, and Azimut - Bennetti are among the motor yacht manufacturers using the S4 series waterjet. The contents of the book are indispensable to avoid instant collision on the first manoeuvres and provide "a way" to those without one. The authors contact details for on board bridge tuition are included in the book.

This book covers how to turn on, check, operate and steer vessels fitted with the Rolls Royce S3 and S4 series Waterjet nozzles. An indispensable guide for owners and masters seeking to avoid collision induced repair bills, and to bridge the gap between inexperience and safe operation of waterjet vessels.

He is a spectre hidden in the mists of a large multinational. After waiting years, planning, building, assembling, his time has finally come!. Only when it exploded onto the TV screens of American homes and transformed the streets of Washington into a blood bath did the world comprehend his arrival. By then however, it was too late! Whether he lived or died, his plan would unfold and soon it would hang Tsunami-like over our lives. So begins the story that will make you look twice at every tablet you take. Sandy, a South African stockbroker is drawn into a terrifying web of hired assassins, some visible but others hidden within the human body! Her best friend is brutally murdered and then she is held hostage. The story her captor tells her before she kills him chills her blood! Across the ocean, the top genetic engineer from an ultra secret biolab disappears. Five months later the US President is infected with the perfect weapon: unseen, unstoppable, irreversible. He dies within 3 weeks. The Vice President takes over the reins but he too is infected with a much deadlier genetic assassin. Within days he becomes demented and in a fit of induced madness unleashes 3 nuclear weapons against a fleet of sinister battle craft off the Californian coast. Estimated American dead: 14 million! In a huge mansion overlooking the Bosphorus Straits sits the man who is the key to both these events. A product of Nazi genetic testing, his time for revenge has come! From Libya to the Ukraine, from Washington to Munich, from Cape Town to Jerusalem he draws the world into a spiral of horror and terror it beyond our comprehension! China threatens the USA with a naval power that can defeat even her most awesome super carriers! Ukranian troops invade Belerus. In the terrifying climax deep beneath the Mamara Sea, Sandy must confront this devil personified whose sole desire is to bring humankind to the brink of extinction! If she fails, we all lose! Unknown to her, this evil genius is one step ahead of her all the way. His final act is to use Sandy to reproduce his ultimate creation: ADAPT, code named Lucifer!

This book covers design, propulsion, and a history of motor boats and includes manufacturers' details of boats ranging from the smallest inflatables to the vast superyachts of the rich and famous.

A definitive guide to the most visible and fastest growing segment of the powerboat market. This comprehensive source has complete coverage of the latest developments in the sport. 80 photos.

Describes and illustrates the navies of over 170 nations of the world.
