An erotic paranormal romance... Seductive and lethal vampire, Léopold Devereoux, returns to the Big Easy to find a killer. His search leads him to a beautiful and mysterious woman, who awakens desires and emotions that he ’ s long fought to keep buried. After centuries of self-imposed solitude, the billionaire philanthropist struggles to restrain his growing thirst for the intriguing, lovely female who ’ s captured his attention. Laryssa Theriot, an antiques proprietor in the Vieux Carré, agrees to help the commanding yet debonair stranger, who seeks her assistance. She withholds her secret abilities, afraid to trust the man who threatens to unleash her darkest fantasies. All the while, Léopold consumes her thoughts, testing her limits and bringing her to new levels of ecstasy. As the menacing force that has stalked Laryssa for years finally catches up to her, she submits, putting her life into the hands of the dominant vampire who offers his protection. Deep in the heart of New Orleans, they embark on a perilous adventure, forced to search for an ancient sacrificial relic that they hope will save their lives. As they face formidable challenges, Léopold and Laryssa surrender to the passionate intimacy that possesses them. After hundreds of years of denying himself love, will Léopold bond to the woman who has begun to crack the impenetrable shell around his heart? As evil draws near, will Laryssa survive the demon that has come to take her soul? Warning: This book contains several erotic love scenes and is intended for adult readers only.

Kawasaki KX250 1992-2000

From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

The Haynes Service and Repair manual for the Piaggio Vespa Scooter.

An inspiring exploration of how happiness and holiness can exist in the midst of poverty and illness. Two lay women who have chosen to live among the poor in East Africa, one a Maryknoll lay mission, and the other, a New York attorney who left her law practice to become a lay mission with the Franciscans minister to the poor in Kenya. Slavin first met Salvador when she was volunteering as a lawyer working in a justice and peace program in Kenya. Slavin was intrigued by the well-known phrase "Blessed are the poor." After approaching this seeming paradox through unrewarding library research, she decided that she would join Salvador in her ministry to AIDS orphans to try to understand how the poor can be "blessed." This account tells of their experiences as they worked together with the poor, primarily AIDS orphans, in the slums of Kenya. Photos will be included.

GSX-R600 (1997-2000)

Engine-tuning expert A. Graham Bell steers you through the various modifications that can be made to coax maximum useable power output and mechanical reliability from your two-stroke. Fully revised with the latest information on all areas of engine operation, from air and fuel, through carburation, ignition, cylinders, porting, reed and rotary valves, and exhaust systems to cooling and lubrication, dyno tuning and gearing.

We've all had "aha!" moments in our lives, times when a sudden revelation surprises us with insight. According to pastor and bestselling author Kyle Idleman, we can experience this same kind of "aha!" in our spiritual lives. With everyday examples and trademark testimonies, Idleman draws on Scripture to reveal how three key elements can draw us closer to God and change our lives for good. Awakening to the reality of our true spiritual condition, we see ourselves and our need for a Savior with renewed honesty. This realization leads to action, obeying God's commands and following the example set by Christ. As we see in the transformation of the prodigal son, the result is a life-changing, destiny-altering collision—an AHA moment that leads us home to our loving Father.
