In the Early Modern period, the religious refugee became a constant presence in the European landscape, a presence which was felt, in the wake of processes of globalization, on other continents as well. During the religious wars, which raged in Europe at the time of the Reformation, and as a result of the persecution of religious minorities, hundreds of thousands of men and women were forced to go into exile and to restore their lives in new settings. In this collection of articles, an international group of historians focus on several of the

significant groups of minorities who were driven into exile from the sixteenth to the eighteenth centuries. The contributions here discuss a broad range of topics, including the ways in which these communities of belief retained their identity in foreign climes, the religious meaning they accorded to the experience of exile, and the connection between ethnic attachment and religious belief, among others.

carefully chosen figures, the presence of Portuguese individuals of Jewish origin in Rome after the initial creation of a tribunal of the Portuguese Inquisition in 1531. The book delves into the varied ways in which the protagonists, representing a cross-section of Portuguese society, went about grappling with the complexities of a New Christian identity, and tracks them through their interactions with Roman society and its institutions. Some chose to flaunt Jewish origins. They espoused a sense of being part of a distinctive group, the Portuguese New Christian nação, that set them apart from other Portuguese. Others

chose to blend as much as possible into the broader Iberian world represented at Rome, and avoided calling attention to their family past. All, however, had in their own way to work out the multiple shades of what was involved in being a Portuguese with Jewish roots needing to navigate the social and cultural pathways through Rome, the urban center of the Catholic Church. The book draws on archival research conducted in the Vatican, elsewhere in Italy, in Spain, and in Portugal. It brings a variety of sources to bear on the complex phenomenon of emergent group identities. It also proposes a critical

d'un tribunal de l'Inquisition au Portugal en 1531. Le livre présente, dans un cadre analytique, sept vignettes de personnages historiques. Il documente en particulier les façons dont ces agents, qui représentaient une coupe de la société portugaise contemporaine, choisirent d'affronter les exigences de leur nouvelle identité chrétienne, tout en jouant des interactions avec la société romaine et ses institutions. Certains affichaient leur racines juives. Ils épousaient un sens d'appartenir à un groupe particulier, la nação des Chrétiens Nouveaux d'origine portugaise. D'autres choisirent de

Tous durent affronter les multiples incertitudes pénombreuses d'être Portugais d'origine juive navigant entre les écueils culturels et sociaux de Rome, le siège urbain de l'Église catholique. L'ouvrage est un fruit de recherches menées en Italie, au Vatican, en Espagne, et au Portugal. Il invoque des sources diversifiées pour illuminer le phénomène complexe d'identités collectives émergentes. Il propose également des réflexions critiques au sujet de

the period which historians have argued was the most active in the Inquisition's history: the first forty years of the tribunal in Modena, from 1598 to 1638, the year of the Jews' enclosure in the ghetto. Scholars have in the past tended to group trials of Jews and conversos in Italy together. This book emphasises the fundamental disparity in Inquisitorial procedure, as well as the evidence examined, and argues that this was especially true in Modena where the secular authority did not have the power during the period in question to reject, or even significantly monitor, Inquisitorial trial

procedure. It draws upon the detailed testimony to be found in trial transcripts to analyse Jewish interaction with Christian society in an early modern community. This book will appeal to scholars of inquisitorial studies, social and cultural interaction in early modern Europe, Jewish Italian social history and anti-Semitism.

The Mediterranean port of Livorno was home to one of the most prominent and privileged Jewish enclaves of early modern Europe. Focusing on Livornese Jewry, this book offers an alternative perspective on Jewish

acculturation during the eighteenth century, and reassesses common assumptions about the interactions of Jews with outside culture and the impact of state reforms on the corporate Jewish community. Working from a vast array of previously untapped archival and literary sources, Francesca Bregoli combines cultural analysis with a study of institutional developments to investigate Jewish responses to Enlightenment thought and politics, as well as non-Jewish perceptions of Jews, through an exploration of Jewish-Christian cultural exchange, sites of sociability, and reformist policies. Enlightenment shows that Livornese Jewish scholars engaged with Enlightenment ideals and aspired to contribute to society at large without weakening the boundaries of traditional Jewish life. By arguing that the privileged status of Livorno Jewry had conservative rather than liberalizing effects, it also challenges the notion that economic utility facilitates Jewish integration, nuancing received wisdom about processes of emancipation in Europe.

Garcia de Orta's Colloquies on the Simples and Drugs of India (1563) was one of the first books to take advantage of the close relationship between medicine, trade and empire in the early modern period. The book was printed in Goa, the capital of the Portuguese empire in the East, and the city where the author, a Portuguese physician of Jewish ancestry, lived for almost thirty years. It presents a vast array of medical

information on various drugs, spices, plants, fruits and minerals native to India or adjoining territories. In addition, it includes information concerning indigenous methods of healing as well as a far-reaching assessment of ancient and modern authors on Asian materia medica. Orta's book had a market in Asia but was particularly valuable to a European audience. It soon attracted the attention of various European authors and printers by providing the basis for adaptations, commentaries and editions in various languages, prompting a successful and complex trail of medical knowledge in

transit. Authored by an interdisciplinary team of prominent international scholars, the volume takes into account recent historiographical trends and provides a contextualized and innovative analysis of the histories and reception of the Colloquies. It emphasizes the value of the work to historians today as a symbol of the impact of geographical expansion and globalization in a sixteenth-century medical world.

Federica Francesconi writes the history of the Jewish merchants who lived and prospered in the northern Italian city of Modena,

capital city of the Este Duchy, during the seventeenth and eighteenth centuries. Her protagonists are men and women who stood out within their communities but who, despite their cultural and economic prominence, were ghettoized after 1638. Their sociocultural transformation and eventual legal and political integration evolved through a complex dialogue between their Italian and Jewish identities, and without the traumatic ruptures or dramatic divides that led to the assimilation and conversion of many Jews elsewhere in Europe. In Modena, male and female Jewish identities were contoured by

both cultural developments internal to the community and engagement with the broader society. The study of Lurianic and Cordoverian Kabbalah, liturgical and nondevotional Hebrew poetry, and Sabbateanism existed alongside interactions with Jesuits, converts, and inquisitors. If Modenese Jewish merchants were absent from the public discourse of the Estes, their businesses lives were nevertheless located at the very geographical and economic center of the city. They lived in an environment that gave rise to unique forms of Renaissance culture, early modern female agency, and Enlightenment

practice. New Jewish ways of performing gender emerged in the seventeenth century, giving rise to what could be called an entrepreneurial female community devoted to assisting, employing, and socializing in the ghetto. Indeed, the ghetto leadership prepared both Jewish men and women for the political and legal emancipation they would eventually obtain under Napoleon. It was the cultured Modenese merchants who combined active participation in the political struggle for Italian Jewish emancipation with the creation of a special form of the Enlightenment embedded in scholarly and

In this book, twelve scholars of early modern history analyse various categories and cases of deception and false identity in the age of geographical discoveries and of forced conversions: from two-faced conversos to serial converts, from demoniacs to stigmatics, and from self-appointed ambassadors to lying cosmographer.
