This collection brings together perspectives from industrial relations, political economy, political theory, labour history, sociology, gender studies and regulatory theory to build a more inclusive theory of labour law. That is, a theory of labour law that is more inclusive of non-traditional workers (including

those in atypical work, or from non-traditional backgrounds); more inclusive of a variety of collective approaches to work regulation that foster solidarity between workers; and more inclusive of interdisciplinary and complex explanations of labour law and its regulatory spaces. The individual chapters speak to this theme of inclusivity in different ways and offer different suggestions for how it might be achieved. They break down the barriers between legal research and other fields, to promote fruitful and integrative conversations across disciplines. In the spirit of inclusivity and intergenerational dialogue, the book blends contributions from early career and emerging scholars with those from leading scholars in the field, featuring critical commentary from senior labour law figures alongside theoretically and empirically informed work.

The South African labour market has undergone unparalleled reformations since 1994. This textbook, which is up to date with all the current legislation, provides a comprehensive text for students at tertiary institutions. It is also a valuable reference for Industrial Relations practitioners.

This book focuses on the causes of starvation in general and famines in particular. The traditional analysis of famines is shown to be fundamentally defective, and the author develops an alternative analysis.

A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work "open access": digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.
