tradition in language curriculum development. Central design begins with classroom processes and methodology. Issues of syllabus and learning outcomes are not specified in detail in advance and are addressed as the curriculum is implemented. Many of the ' innovative methods ' of the 1980s and 90s reflect central design. Backward design starts from a specification of learning outcomes and

Curriculum Approaches © The Author(s) 2013 in Language ...

In the curriculum design process these factors are considered in three sub-processes, environment analysis, needs analysis and the application of principles. The result of environment analysis is a ranked list of factors and a consideration of the e ffects of these factors on the design. The result of needs analysis is a realistic list of language, ideas or skill items, as a result of considering the present pro fi ciency, future needs and wants of the learners.
