### Learning The Bash Shell

Bash is a Unix shell and command language written by Brian Fox for the GNU Project as a free software replacement for the Bourne shell. First released in 1989, it has been used as the default login shell for most Linux distributions and all releases of Apple's macOS prior to macOS Catalina. A version is also available for Windows 10 via the Windows Subsystem for Linux.

#### **Bash (Unix shell) - Wikipedia**

To see what is your default interpreter execute command `echo $SHELL` : `$ echo $SHELL`  
`/bin/bash`. There are various other shell interpreters available, such as Korn shell, C shell and more. From this reason, it is a good practice to define the shell
