Marketing attempts to influence the way consumers behave. These attempts have implications for the organizations making the attempt, the consumers they are trying to influence, and the society in which these attempts occur. We are all consumers and we are all members of society, so consumer behavior, and attempts to influence it, are critical to all of us. This text is designed to provide an understanding of consumer behavior. This understanding can make us better consumer, better marketers, and better citizens. A primary purpose of this text is to provide the student with a usable, managerial understanding of consumer behavior.-Pref.

Roberto Bolaño has attained an almost mythical stature and is often considered the most influential Latin American writer of his generation. The first English-language volume of essays on the Chilean author, Roberto Bolaño, a Less Distant Star: Critical Essays, includes ten critical essays of his oeuvre. With a special emphasis on his masterpieces: 2666, The Savage Detectives, By Night in Chile, and Distant Star, the essays address topics such as Borges's influence and the role of repetition, social memory, allegory, and neoliberalism.

The New York Times bestselling author of Patriots and How to Survive the End of the World as We Know It returns with another riveting postapocalyptic tale New York Times bestselling author James Wesley, Rawles has won a large readership among the growing ranks of survivalists and preppers with novels that combine fast-paced adventure with useful how-to information. Set against a backdrop of global socioeconomic collapse, Liberators features Afghanistan War vet Ray McGregor and Phil Adams, a Defense Intelligence Agency officer. When the United States is engulfed by chaos, a tyrannical army of occupation ruthlessly restores order. Operating out of a sparsely populated town in remote western Canada, the two men fight the occupiers to ensure not only their own survival, but also the future of North America.

This work shows how the various elements of consumer analysis fit together in an integrated framework, called the Wheel of Consumer Analysis. Psychological, social and behavioural theories are shown as useful for understanding consumers and developing more effective marketing strategies. The aim is to enable students to develop skills in analyzing consumers from a marketing management perspective and in using this knowledge to develop and evaluate marketing strategies. The text identifies three groups of concepts - affect and cognition, behaviour and the environment - and shows how these they influence each other as well as marketing strategy. The focus of the text is managerial, with a distinctive emphasis on strategic issues and problems. Cases and questions are included in each chapter.

Designed for teaching astrophysics to physics students at advanced undergraduate or beginning graduate level, this textbook also provides an overview of astrophysics for astrophysics graduate students, before they delve into more specialized volumes. Assuming background knowledge at the level of a physics major, the textbook develops astrophysics from the basics without requiring any previous study in astronomy or astrophysics. Physical concepts, mathematical derivations and observational data are combined in a balanced way to provide a unified treatment. Topics such as general relativity and plasma physics, which are not usually covered in physics courses but used extensively in astrophysics, are developed from first principles. While the emphasis is on developing the fundamentals thoroughly, recent important discoveries are highlighted at every stage.
