By reading Darwin's journal entries and letters, students will learn firsthand how Darwin arrived at his theory. They also will gain a better sense of Darwin's journey and the role it played in his...

Evolution: Online Lessons for Students: Lesson 2 Teacher Page  
Darwin believed that species adapt and change over time to suit their environment. He theorised that this is possible through the process of 'natural selection.' This means that living things that are better adapted to survive and reproduce will pass on these traits to their offspring over many generations, enabling the species to change or evolve.

{Description} Among Darwin Ortiz' many fans, the only question is which of his card books is the best: Darwin Ortiz at the Card Table, Cardshark, or Scams & Fantasies with Cards. Now there is a new candidate: the aptly-named Lessons in Card Mastery. This time the accent is on uncanny displays of card control. You'll display physical control by cutting to a selected card with just one finger ...
