Welcome to Corporate Life. The NEW Employee Manual is not your Dad's or Mom's employee manual. It's the new playbook for corporate survival, fitting today's realities and the challenges facing employees who join or work in large, seemingly successful companies. Those companies already issued very specific and detailed employee manuals covering everything under the sun except how to compete well in our brave new world. The NEW Employee Manual will help you navigate the Corporate (with a capital C) labyrinth. Where Corporate's manual shapes you into a dutiful cog for the good of the machine, ours helps you enhance your career for the good of, well, you ... and your company. The NEW Employee Manual should make you feel skeptical: skeptical of empty slogans, obsolete rituals, obsessive pursuits, and bigwigs' playbooks that no longer work. That alone should be worth this book's price. Skepticism, you see, is a good thing, because it is only the skeptic, only the free-thinker, only the maverick, who asks new questions and finds useful answers. So, are you a maverick or a cog?

Offers key historical and interpretative texts on the development and role of "the screen" in communications and the social sphere.

During the antebellum period, slave owners weaponized southern Black joy to argue for enslavement, propagating images of "happy darkies." In contrast, abolitionists wielded sorrow by emphasizing racial oppression. Both arguments were so effective that a political uneasiness on the subject still lingers. In *The Politics of Black Joy*, Lindsey Stewart wades into these uncomfortable waters by analyzing Zora Neale Hurston's uses of the concept of Black southern joy. Stewart develops Hurston's contributions to political theory and philosophy of race by introducing the politics of joy as a refusal of neo-abolitionism, a political tradition that reduces southern Black life to tragedy or social death. To develop the politics of joy, Stewart draws upon Zora Neale Hurston's essays, Beyoncé's *Lemonade*, and figures across several disciplines including Frederick Douglass, W. E. B. Du Bois, Toni Morrison, Angela Davis, Saidiya Hartman, Imani Perry, Eddie Glaude, and Audra Simpson. The politics of joy offers insights that are crucial for forming needed new paths in our current moment. For those interested in examining popular conceptions of Black political agency at the intersection of geography, gender, class, and Black spirituality, *The Politics of Black Joy* is essential reading.

This book deals with the various ways Netflix reconceptualises television as part of the process of TV IV. As television continues to undergo a myriad of significant changes, Netflix has proven itself to be the dominant force in this development, simultaneously driving a number of these changes and challenging television's existing institutional structures. This comprehensive study explores the pre-history of Netflix, the role of binge-watching in its organisation and marketing, and Netflix's position as a transnational broadcaster. It also examines different concepts of control and the role these play in the history of ancillary technologies, from the remote control to binge-watching as Netflix's iteration of giving control to the viewers. By focusing on Netflix's relationship with the linear television schedule, its negotiations of quality and marketing, as well as the way Netflix integrates into national media systems, Netflix and the Re-invention of Television illuminates the importance of Netflix's role within the processes of TV IV.
