Fundamentals of Medical Physiology provides a concise, in-depth introduction by organ system to the principles of body function and uses emphasis on general models and clinical cases to foster mastery of these principles. Special features include: An emphasis on general models that underlie a number of recurring physiologic mechanisms -- for example, flow of substances and the factors that affect flow or energy formation and transformation -- to strengthen understanding Use of clinical cases -- developed, refined, and tested in the classroom over the past decade -- to test mastery of physiologic concepts Section-opening Patient Cases conclude with Some Things to Think About to help direct your study of the physiologic mechanisms of that organ system Chapter Questions ask you to apply what you

This text comprehensively reviews the current state of the art in Laryngopharyngeal Reflux (LPR) together with a comprehensive explanation and description of the known gastroesophageal reflux (GERD) literature. With chapters written by experts from around the world, this text aims to deliver what is current in reflux recognition, diagnosis, reflux related complications, and the various treatment modalities. This is the first textbook to combine the most up

to date knowledge of both LPR and GERD meant for both specialties and the general medicine population. Completely unique to the reflux literature is a section detailing the substantial benefits of a mostly plant based, Mediterranean style diet in the treatment of reflux disease. Encouraging patients to read and learn about diet and health is likely the most important step in improving their disease. The text provides direction to the caregiver on how to transition to a mostly plant-based diet. Review of myths, effects of diet in the setting of other disease states, and dietary consequences are explained. Guidelines on how to transition diet, dining out while maintaining a plant-based diet, and how to wean off medication, such as PPI, are also provided. Laryngopharyngeal and Gastroesophageal Reflux:
