*Helihub.com ADAC Luftrettung Reserves Two Volocopter ...*

ADAC Luftrettung has reserved two VoloCity eVTOL aircraft, built by Volocopter. The reservation comes after ADAC Luftrettung published a feasibility study about piloted multicopters, which concluded that "air rescue with piloted multicopters is possible, makes sense, and improves the emergency medical care of the population". It aims to conduct operational tests in 2023.

*Volocopter to provide eVTOL platforms to ADAC Luftrettung ...*

ADAC Luftrettung decided on this investment based on the results of the organization's feasibility study on the use of manned multicopters in the rescue service. After two years of close co-operation between the two companies, this is the next step in preparing for operational tests of multicopters in the rescue service from 2023.

*ADAC Luftrettung reserves multicopters for air rescue ...*

Die Luftrettung ist der Einsatz von Rettungsmitteln über den Luftweg in der Notfallmedizin. Die Luftrettung wird dann eingesetzt, wenn die Lage ein schnelleres Eingreifen erfordert, als durch bodengebundene Rettungsdienste möglich ist. Das kommt meist in ländlichen Gebieten vor, wo dann meist ein Rettungshubschrauber verwendet wird; es fliegt aber z. B. in Australien im Outback der Flying ...
