Starting a business is inherently risky, but it has historically been much harder for African Americans due to the systemic racism they face in many different areas. However, many black entrepreneurs have overcome those barriers to create successful businesses, working harder than their white counterparts to achieve similar results. Readers will learn about the history of discrimination against African Americans in the business world and how it has been and still can be combated. Historical and contemporary photographs and a comprehensive timeline shine a spotlight on many African American entrepreneurs who have changed the world.

Today everyone—whether they know it or not—is in the emotional transportation business. More and more, success is won by creating compelling stories that have the power to move partners, shareholders, customers, and employees to action. Simply put, if you can't tell it, you can't sell it. And this book tells you how to do both. Historically, stories have always been igniters of action, moving people to do things. But only recently has it become clear that purposeful stories—those created with a specific mission in mind—are absolutely essential in persuading others to support a vision, dream or cause. Peter Guber, whose executive and entrepreneurial accomplishments have made him a success in multiple industries, has long relied on purposeful story telling to motivate, win over, shape, engage and sell. Indeed, what began as knack for telling stories as an entertainment industry executive has, through years of perspiration and inspiration, evolved into a set of principles that anyone can use to achieve their goals. In Tell to Win, Guber shows how to move beyond soulless Power Point slides, facts, and figures to create purposeful stories that can serve as powerful calls to action. Among his techniques: * Capture your audience's attention first, fast and foremost * Motivate your listeners by demonstrating authenticity * Build your tell around "what's in it for them" * Change passive listeners into active participants * Use "state-of-the-heart" technology online and offline to make sure audience commitment remains strong To validate the power of telling purposeful stories, Guber includes in this book a remarkably diverse number of "voices" —master tellers with whom he's shared experiences. They include YouTube founder Chad Hurley, NBA champion Pat Riley, clothing designer Normal Kamali, "Mission to Mars" scientist Gentry Lee, Under Armour CEO Kevin Plank, former South African president Nelson Mandela, magician David Copperfield, film director Steven Spielberg, novelist Nora Roberts, rock legend Gene Simmons, and physician and author Deepak Chopra. After listening to this extraordinary mix of voices, you'll know how to craft, deliver—and own—a story that is truly compelling, one capable of turning others into viral advocates for your goal.

The story of Black Entertainment Television and its creator traces the network's rise to a multi-billion-dollar empire, describes Johnson's humble origins and education through his work as a cable industry lobbyist, and discusses BET's successes in light of its business philosophy and impact on race in America.

Great leadership begins with great understanding. No one knows that better than basketball legend Byron Scott and lifelong business executive Charlie Norris who, respectively, won NBA championships and resurrected multimillion-dollar corporations by being team players no matter their position. Whether it's on the basketball court, in the boardroom, or in everyday life, getting to the heads and hearts of people is paramount to getting the most out of them. In SLAM-DUNK SUCCESS, Scott and Norris share their parallel formulas for victory and prove that, with the right tools, winning can happen anywhere. As a player Scott won three championships with the Los Angeles Lakers, and as coach he twice took the New Jersey Nets to the NBA Finals and won Coach of the Year honors with the New Orleans Hornets. With every team his role changed, but his winning mentality never faltered. As CEO of McKesson Water, Charlie Norris turned a $200 million-dollar company into a company that sold ten years later for $1.1 billion dollars and, as chairman of the board of Freshpet, he helped lead the start-up from early stage testing to become a publicly traded company with a market value of over $350 million. In each job, he led with the same amount of conviction and care. Their book-which grew from their unlikely friendship and realization that two men from completely different backgrounds could have the same leadership ideals-breaks down their keys to motivating others, negotiating deals, and creating prosperity from scratch. Their blueprint includes lessons on listening, turning failure into learning opportunities, and delegating authority with extreme precision. Leadership is a full-time job and Byron Scott and Charlie Norris's story is a guidebook for leaders in all fields and in any position looking to better both their careers and lives. Champions are formed when people make those around them better and this book shows how you can be a winner every day.
