Manual Valve Body: Turns your auto tranny into a partial-manual tranny. Shift Kit: Makes your auto tranny do the exact same thing it does now, but better. (There does not appear to be a manual valve body for the four-speed electronic automatic used by current Chrysler, Dodge, and Plymouth front-wheel-drive vehicles, since it does not have a ...

[Manual Valve Body Vs Shift Kit - infraredtraining.com.br](#)

The valve body of the transmission contains several shift valves. The shift valve determines when to shift from one gear to the next. For instance, the 1 to 2 shift valve determines when to shift from first to second gear.

Only difference is the manual shift where as the -2 kit shifts auto in Drive still. Also with these kits, keep in mind it still requires the modulator still needs to be connected to control line pressure . The -3 kit has extra's to make the manual shift but they are able to be changed back to auto -2 kit if you required . The same sep plate is used

Valve Bodies - Hughes Performance ... [...]

### Valve Bodies - Hughes Performance

The photos in Figures 2-17 show the differences between the ZF6 Generation 1 and 2 valve body components for both the "M-shift" (manual valve) and "E-shift" (solenoid controlled manual valve) version. There are some obvious differences between the E- and M-shift versions within each generation, which would be expected due to the method in which the manual valve is operated.

### Sonnax Talkin' 'Bout My Gen-eration: ZF 6-Speed ...

The automatic transmission valve body controls the shifting of the transmission. A manual valve body gives the driver full control over when the transmission changes gears. When you install a high performance transmission valve body assembly you also gain quicker, firmer shifts for improved performance and reduced wear.

### Reverse Manual Valve Body | Forward Pattern Valve Body

Power Driven Diesel Full Manual Valve Body Build Kit (shift kit) to modify your stock 47rh, 47re, or 48re valve body. Includes additional instructions for manual 2nd gear lockup and 200 psi line pressure upgrade. Select your desired power level range from 425 HP up to 1000 HP.
