major publication since the seminal *Narrative Means to Therapeutic Ends*, which Norton published in 1990.

Final thoughts from the now-deceased leader of narrative therapy. Michael White's untimely death deprived therapists of a leading light. Here, available for the first time in book form, is a collection of the work he left behind—writings on topics dear to the psychotherapeutic world: turning points in therapy, conversations, resistance and therapist responsibility, couples therapy, and narrative responses to trauma.

defined by personal and cultural narratives, and ways the therapist can assist clients in co-constructing and reauthoring narratives to fit their preferences. The authors share their therapeutic vision through a series of stories, fictionalized discussions, and minidramas, in which problems have a voice. Written in an engaging and personal style, the book challenges many dominant ideas in psychotherapy, inviting the reader to enter a world in which she or he can experience a radically different view of problems, people, and therapy. A wealth of stories told from the clients' point of view illustrate the

creative ways they begin to deal with problems: Individuals escape them, couples take their relationships back from problems, kids dump their problems, and teenagers work with their parents to fight their problems. Training and supervision from the perspective of students are also discussed. As entertaining as it is informative, this book will be welcomed by family therapists both novice and experienced, from a range of orientations. Offering a creative and accessible approach to clinical work, it also serves as a supplementary text in courses on family and narrative therapy.

Excerpt: ...to intervene at a policy level. He did feel that he was getting somewhere with these initiatives, and it wasn't this that he wished to focus on in our conversation. What concerned him most, and what he wanted to explore in our conversations, was that, despite his awareness of the context of the dilemmas he

## Michael White

was facing in his work, he couldn't help but feel that he was failing the persons who were consulting him. It was this sense of failure that he believed was contributing most significantly to the despair that he had spoken of at the beginning of our conversation. As we talked, I asked Paul some questions: 'Despair isn't something that persons experience without having had some hope that things would be different. Could we talk about some of the hopes that you have for the lives of others, those hopes that you have experienced being frustrated?' 'You said that many of your agency's recent policy

decisions go against what you stand for. Would you talk about some of your values and beliefs that are contradicted by these decisions?' 'In regard to the sense of failure that you have spoken of, could you say something about your appreciation of the possibilities that are available to persons in their lives?' In the conversation that was shaped by these questions, I also asked Paul to assist me to understand the history of these hopes, of these values, and of this understanding of the possibilities available to persons in their lives. In tracing the history of these hopes, values, beliefs, and

hold of negative ("thin") narratives upon the client. Replete with case examples from clinical practice, this is the first book to present a compelling evidence base for narrative therapy, interweaving practice tips, training, and research. The book's rigorous, research-based approach meets the increasing demand on therapists to demonstrate the effectiveness of their approach, critically reflecting on both process and outcomes, expanding on the concept of evidence-based practice.
