There are many Master Tung points that I personally have found to be more effective than traditional meridian acupuncture points and Wu Hu (Five Tigers) is in that category. Wu Hu is a set of five acupuncture points located on the radial aspect of the proximal segment of the thumb on the border of the red and white skin.

The Theory While the use of special points and synergistic needling (dao ma) are hallmarks of Master Tung 's Acupuncture, any discussion of his approach is incomplete without mention of his bloodletting therapy. Especially in chronic, severe, or difficult cases that do not respond well to acupuncture and herbs, bloodletting is indispensable.

Although Master Tung's Acupuncture has been in the public domain since his untimely passing in 1975, very little information is available publicly on how to use the system in a practical and systematic way in English. In this book, I hope to guide my fellow colleagues into the intricacies of

applying Master Tung Acupuncture in the clinic. Since I am also a practicing acupuncturist and deal with pain, women's health, and internal medicine problems quite frequently, I am sharing my clinical experience in this book and the "secret" of creating the protocols that I use daily, with modification. I also attempt to explain why I choose a particular protocol and the modification to it. In this book, I introduce what I consider the "Best" of Master Tung's Acupuncture. There are many books on Master Tung's Acupuncture which introduce all of the 740 Tung family points. but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use Master Tung's Acupuncture immediately and effectively. Most acupuncturists simply add the Tung points to their already memorized TCM Acupuncture point prescriptions, and as a result, make a mess out of their acupuncture. They do not have a simple and elegant rationale for using the system. In my teaching of Master Tung's Acupuncture, I always choose points that are painless, easily accessible, and have powerful immediate results.

This book is a Primer, an introduction of the quintessential basics. Something that a person who has not attended my seminars could read quickly, and immediately familiarize themselves with the core concepts, imaging, channel methods, have a few "go-to" points, and immediately apply the magic of Master Tung's Acupuncture in the clinic. It is not exhaustive in theory, details, or intricacies, but shows the power of the system to a TCM trained acupuncturist and immediately benefit by it. When I first started working with Master Tung's Acupuncture in acupuncture school, I read the available books of that time and wished there was a simple book to present the information. Since the average acupuncturist already is familiar with over 400 points, why

scrap that and begin another system? But in the way I wrote this Primer, they can simply add to the information they have and then immediately apply this in the clinic. There are many books on Master Tung's Acupuncture, but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use Master Tung's Acupuncture. But don't underestimate the power of the content of this book. It will certainly transform your practice. The idea of this book is to give you a simple and elegant rationale for using the system., use the powerful 14 Channel acupuncture you are already familiar with, and make use of the Master Tung system immediately.

In this book, I use a lot of standard acupuncture points along with Master Tung's acupuncture and emphasize the use of channels and imaging for optimal clinical use. If a practitioner can use this work, they can have a turnkey approach in the clinic, simply by implementing these acupuncture and herbal protocols. The idea is for each disease, I have installed "cheat sheets" for the practitioner to immediately refer to and try to insert needles and prescribe herbs for. The fifth in the series of Master Tung's Acupuncture books, the idea is for someone to start with the Master Tung's Primer, The Best of Master Tung's Acupuncture, Master Tung's Acupuncture for Pain, and Master Tung's Acupuncture for Internal Medicine Disorders. With this manual, we will discuss the use of Master Tung's Acupuncture with herbals for even greater clinical success. The book is composed of monographs on each disease, best points to treat the problem, and high percentage success

herbal prescriptions to give the patient as homework. Unique is that we only use a handful of both TCM and Master Tung points, and a small amount of herbal formulas for a turnkey approach to a clinic. This can be used as a roadmap for the new clinician, improve clinical success for the intermediate practitioner, or provide an alternative approach for the seasoned veteran.

Although Master Tung's Acupuncture has been in the public domain since his untimely passing in 1975, very little information is available publicly on how to use the system in a practical and systematic way in English. In this book, I hope to guide my fellow colleagues into the intricacies of applying Master Tung Acupuncture in the clinic. Since I am also a practicing acupuncturist and deal with Internal Medicine problems quite frequently, I wrote these based on the protocols that I use daily. Each of these protocols has been personally used by me one time or another in the clinic. Many of these are also the same protocols I used when I work daily in my private clinic. Since I am a visual person,

and I like things in a simple manner, I have placed the pictures of the points indicated for the various ailments together, to make it as simple as possible for the practicing acupuncturist to use in his or her clinic. I dislike overly drawn out discussions on theory, but prefer that application be one's guide. I also dislike secrecy, so I hold back no "alleged" secrets from anyone who wants to learn the real art. My goal is to help end suffering in the world and help English speaking acupuncturists improve their proficiency through the vehicle of Master Tung's Acupuncture.

For the first time Calvin has published his Clinical Acupuncture Case Study book in English for clinicians and acupuncture students, 30 YEARS OF CLINICAL STUDIES This book is absolutely beautiful.
