This question paper consists of: • 30 pages that include 2 pages at the back for extra calculations or rough work. • 5 questions. 2. Please check that your question paper is complete.

Why do so many learners, even those who are successful, feel that they are outsiders in the world of mathematics? Taking the central importance of language in the development of mathematical understanding as its starting point, Mathematical Literacy explores students' experiences of doing mathematics from primary school to university - what they think mathematics is, how it is presented to them, and what they feel about it. Building on a range of theory which focuses on community, knowledge, and identity, the author examines two particular issues: the relationship between language, learning, and mathematical knowledge, and the relationship between identity, equity, and processes of exclusion/inclusion. In this comprehensive and accessible book, the author extends our understanding of the process of gaining mathematical fluency, and provides tools for an exploration of mathematics learning across different groups in different social contexts. Mathematical Literacy's analysis of how learners develop particular relationships with the subject, and what we might do to promote equity through the development of positive relationships, is of interest across all sectors of education—to researchers, teacher educators, and university educators.

TARGET SNAP 2018 - Past (2005 - 2017) + 5 Mock Tests contains the detailed solutions of SNAP Question Papers from 2005 to 2017. The book also contains 5 Mock tests designed exactly as per the latest pattern of SNAP. The book also contains a General Awareness Question Bank containing 100+ MCQ's involving current issues similar to the ones asked in the actual exam. As the pattern of SNAP is changing every year so different patterns have been incorporated in the Mock Tests.
