MATTSON TECHNOLOGY INC ... In 1991 the Company introduced its first product, the Aspen Strip system, a photoresist removal system that uses diode source technology. The product was enhanced in 1993 to allow for a second process chamber and the use of a "downstream" triode process. In 1995 we first shipped a new version of our Aspen Strip which utilizes inductively coupled plasma (ICP ...

As I understand it, a book Preface is where the author explains to the reader how the book in hand came about, something of the personal reasons for having inflicted such extended duress on one's self to complete the manuscript. and other items that are fit to say but do not fit in the text. This book had its conceptual beginnings in the 1970's with my 'studies

Bookmark File PDF Mattson Aspen

in scientific synthesis at the North Central Forest Experiment Station, St. Paul, Minnesota. Ours is, clearly, the age of analysis. But, I felt, we must soon begin frameworks for synthesis, or a synthesis would never be possible. In short, I hoped to develop 'interaction' as an integrative principle in forestry. As work progressed on the manuscript, other subthemes developed. First, there was the vague feeling on my part that the forestry profession was losing ground in the contest to see who should manage the forests of the world. This was happening not because foresters do not know how to manage forests in a reasonable manner, but because the public seemed to be losing faith in the judgement of foresters as professional,

Bookmark File PDF Mattson Aspen

responsible, wise land managers. Several well-known incidents of poor judgement in timber harvesting methods on national forests in the United States did little to help the forester's image.
