When May Bird and her faithful companion, Somber Kitty, encounter the ghostly world of the Ever After, their (after)lives will change forever. This collectible boxed set includes paperback editions of: The Ever After: Shy, precocious May Bird wants nothing more than to be accepted. One day she falls through a lake into the Ever After, a world of ghosts. As she journeys through fantastic lands, she gathers an unusual group of new friends who join together to overcome the chillingly evil Bo Cleevil and find their way home. Among the Stars: May Bird continues her adventure through the Ever After in pursuit of home. Along the way, she and her friends encounter all sorts of places and ghosts, from the terrifying to the hilarious. Finally May learns that the only way home is through the evil Bogey’s personal portal, which he uses to scare kids in their nightmares. Warrior Princess: Now thirteen and home in Briery Swamp, May is still haunted by thoughts of the friends she left behind in the Ever After. Then one night May travels back to the Ever After–only to learn that the evil Bo Cleevil is close to making his reign supreme. At last, May is ready to live up to the prophecy that placed the fate of the Ever After in her hands, and battle Bo Cleevil himself to save not only this world but her own as well.

At Hog Wallow Middle School, May Ellen Bird was always slightly invisible. Then she went on a long trip to the land of the dead, where ghost towns glowed blue in the dark dusk and spooky specters dwelled in cities on the Dead Sea. Back on Earth at last, May and her hairless cat, Somber Kitty, are now famous, their faces plastered across souvenirs and sportswear that read “May Bird Went to the Land of the Dead and All She Brought Me Was This Lousy T-Shirt.” But, finally in the spotlight, May feels more than ever that she doesn't belong. Every night she sits by her bedroom window, gazing at the sky and dreaming of another place, wishing -- despite herself -- to be back among the ghosts. And then one night she gets her heart's desire in a way she would never have wished for. Only the Ever After isn't anything like the world May left behind three years ago. The spirits have vanished, and the towns -- once full of every manner of things that go bump in the night -- are deserted. Evil Bo Cleevil has made the Ever After as cold as his own frigid soul, and put up a bunch of tacky malls to boot. Now, with her friends missing and enemies all around her, May must find her way to the edge of the universe, where night swallows the stars, where allies are few and often have bad breath, where endings can also be beginnings, and where the truest hero lurks in the unlikeliest of souls. But Bo Cleevil's got one last trick up his sleeve -- one that no one on Earth is ready for. With the worlds of the living and the dead in the balance, will May's courage fail her one last time? Or will she finally become the warrior she was always meant to be?

Most people aren't very comfortable in the woods, but the woods of Briery Swamp fit May Bird like a fuzzy mitten. There, she is safe from school and the taunts and teases of kids who don't understand her. Hidden in the trees, May is a warrior princess, and her cat, Somber Kitty, is her brave guardian. Then May falls into the lake. When she crawls out, May finds herself in a world that most certainly does not feel like a fuzzy mitten. In fact it is a place few living people have ever seen. Here, towns glow blue beneath zipping stars and the people -- people? -- walk through walls. Here the Book of the Dead holds the answers to everything in the universe. And here, if May is discovered, the horrifyingly evil Bo Cleevil will turn her into nothing. May Bird must get out. Fast. Within these pages, Jodi Lynn Anderson shares with us the beginning of May Bird's daring journey into the Ever After, a haunting place where true friends -- and one terrible foe -- await her on every corner.

May Bird has always been a bit. . . different. While most of her classmates were riding their bikes, she was running around the West Virginia woods, dressed as a warrior princess with her hairless cat at her side. And while most of her classmates were spending their summer vacations going to birthday parties, May was discovering a mysterious lake hidden among the trees -- and stumbling into the land of ghosts, the Ever After. A fearful and fantastic realm located among the stars, the Ever After is full of phantoms and poltergeists, ghouls and goblins, and all manner of things that go bump in the night. And if May is to find her way out again, she must reach the mysterious Lady of North Farm, who lives in a cold, forbidding land that even the spooks find spooky. With her courageous (yet melancholy) kitty and a ragtag group of spectral friends she's picked up along the way, May is determined to escape the Afterlife. But her travels will bring her face-to-face with her worst fears: a devious pursuer; a truly horrifying dance party under the sea, hosted by the Bogey (aka Boogie) Man; and the Ever After's terrible ruler, Evil Bo Cleevil. And when all of these things collide, there's no telling who will find courage to make it through. . . or who will be left behind.

Told in diary form by an irresistible heroine, this “heartfelt, bittersweet, and ever-so-clever coming-of-age fantasy” (School Library Journal, starred review) named one of Publishers Weekly’s Best Books of the Year from the New York Times bestselling author of the May Bird trilogy sparkles with science, myth, magic, and the strange beauty of the everyday marvels we sometimes forget to notice. Spirited, restless Gracie Lockwood has lived in Clifden, Maine, her whole life. She’s a typical girl in an atypical world: one where sasquatches helped to win the Civil War, where dragons glide over Route 1 on their way south for the winter (sometimes burning down a T.J. Maxx or an Applebee’s along the way), where giants hide in caves near LA and mermaids hunt along the beaches, and where Dark Clouds come for people when they die. To Gracie it’s all pretty ho-hum,until a Cloud comes looking for her little brother Sam, turning her small-town life upside down. Determined to protect Sam against all odds, her parents pack the family into a used Winnebago and set out on an epic search for a safe place that most people say doesn’t exist: The Extraordinary World. It’s rumored to lie at the ends of the earth, and no one has ever made it there and lived to tell the tale. To reach it, the Lockwoods will have to learn to believe in each other–and to trust that the world holds more possibilities than they’ve ever imagined.

Insider information that will help any birder make the most of a visit to Cape May, New Jersey, one of the most important birding sites in North America, is offered in this guide that features a complete Cape May bird list and a description of the region's history.

From the New York Times bestselling author of The Genius of Birds, a radical investigation into the bird way of being, and the recent scientific research that is dramatically shifting our understanding of birds -- how they live and how they think. "There is the mammal way and there is the bird way." But the bird way is much more than a unique pattern of brain wiring, and lately, scientists have taken a new look at bird behaviors they have, for years, dismissed as anomalies or mysteries -- what they are finding is upending the traditional view of how birds conduct their lives, how they communicate, forage, court, breed, survive. They are also revealing the remarkable intelligence underlying these activities, abilities we once considered uniquely our own: deception, manipulation, cheating, kidnapping, infanticide, but also ingenious communication between species, cooperation, collaboration, altruism, culture, and play. Some of these extraordinary behaviors are biological conundrums that seem to push the edges of, well, birdness: a mother bird that kills her own infant sons, and another that selflessly tends to the young of other birds as if they were her own; a bird that collaborates in an extraordinary way with one species-ours--but parasitizes another in gruesome fashion; birds that give gifts and birds that steal; birds that dance or drum, that paint their creations or paint themselves; birds that build walls of sound to keep out intruders and birds that summon playmates with a special call--and may hold the secret to our own penchant for playfulness and the evolution of laughter. Drawing on personal observations, the latest science, and her bird-related travel around the world, from the tropical rainforests of eastern Australia and the remote woodlands of northern Japan, to the rolling hills of lower Austria and the islands of Alaska's Kachemak Bay, Jennifer Ackerman shows there is clearly no single bird way of being. In every respect, in plumage, form, song, flight, lifestyle, niche, and behavior, birds vary. It is what we love about them. As E.O Wilson once said, when you have seen one bird, you have not seen them all.

In 1851, thirteen-year-old Cecilia has her eyes opened to the horrors of slavery when she accompanies her ornithologist uncle on an expedition in search of the rare "Scarlet Ibis," and watches as he shows slaves the way to the Underground Railroad.
