Get Through MRCOG Part 2: MCQs covers the breadth and depth of the MRCOG Part 2 examination syllabus and is an essential revision tool for candidates preparing for this examination. The comprehensive and wide collection of practice questions is designed to help the candidate test and assess their knowledge of the subject, aiding them in thorough preparation for the exam. The text contains 750 multiple choice stems, each with around four associated questions, providing the reader with a total of 3000 individual questions with which to test themselves. The material is divided up by subject area, allowing candidates to test their knowledge on a particular topic. The 13 'modules' are followed by two mock papers, each containing a selection of questions on different subject areas, which the reader can attempt under timed conditions. Answers are provided, with useful explanatory information for all questions to help the reader understand why their answer is right or wrong. The author, Paul Ayuk, was clinical lecturer in obstetrics and gynaecology at Oxford University for 6 years and has run an on-line MRCOG course for over 5 years, assisting over 8000 candidates worldwide. The Part 2 MRCOG is one of the most challenging postgraduate examinations in medicine and recent changes bring focus to more MCQs and evidence-based questions. Passing the exam requires not just knowledge but mastery of examination technique. This book provides the unique opportunity not only to practice up-to-date MCQs extensively sourced from the RCOGs suggested reading material, but to consolidate knowledge through its concise notes accompanying the answers. Traditionally difficult topics are given special emphasis and all explanatory notes are methodical and evidence-based - ideal for both exam practice and revision.

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

SBA Questions for the Part 2 MRCOG is a valuable preparation resource aimed at those specialising in obstetrics and gynaecology who are planning to take the Part 2 MRCOG examination. It contains two hundred practice single best answer questions written by MRCOG question writers, with accompanying explanations and references. It also contains an introduction to the new format of the examination and the rationale for the changes. The first section consists of two hundred single best answers allowing the reader to test their knowledge. The second section lists the correct response accompanied by an explanation and suggestions for further reading. SBA Questions for the Part 2 MRCOG is the only official preparation book produced by the RCOG and is therefore essential reading for candidates sitting this examination in its new format.

This book established itself in its first edition as the definitive 'one-stop-shop' revision aid; the only one available to encompass all elements of the MRCOG Part 2 examination in a single volume. Now incorporating practice EMQs as well as the standard question types, this second edition will ensure that it retains its place on the 'must-have' li

This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment.
