The magic is in the skin convolutions created by the tape which vary the tissue pressure, giving a similar effect to manual lymphatic drainage. Lymphatic taping essentially creates 'gutters' of higher and lower pressure in your tissue which help to drain away excess fluid and encourage regeneration of lymph vessels.

Taping for Lymphatics – Massage Yeah

Since the 1970s Manual Lymph Drainage has increasingly been used for decongestion in case of oedema and above all for lymphoedema which until then could not be treated.

Kinesiology taping on human athletes is all the rage: widely used by physical therapists, chiropractors, and personal trainers, we see it on Olympians, runners, basketball players—on amateurs and professionals. The idea behind taping is that it provides incredible support and stabilization of ligaments and tendons while simultaneously stretching and flexing like a "second skin" to allow full range of motion. It can also activate or relax muscles, depending on its application. Our equine athletes can benefit hugely from taping techniques, and this terrific guidebook provides the ultimate reference for understanding both the uses of kinesiology tape and its numerous applications. With hundreds of color photographs and step-by-step instructions for the do-it-yourselfer, equine physiotherapist Katja Bredlau-Morich explains the following forms of kinesiology taping: Muscle - Lymphatic - Scar - Fascia - Space - Hematoma - Stabilization - Tendon - Cross In addition, numerous case studies demonstrate how taping can change your horse's life, keeping him pain-free and performing his best for years to come.
