An introduction to menswear fashion that considers a range of social and historical contexts that have served to define and redefine menswear through the ages.

Whether it's a military inspired trench coat or a Savile Row tailored suit, menswear design increasingly demands originality, innovation and above all, choice. *Menswear*, 2nd edition explores the evolution of menswear styles, from the origins of tailoring right through to modern sportswear - showing how historical and social influences continue to endure and influence the menswear collections of today. Interviews offer insight from a range of practitioners, including designer Lou Dalton, fashion entrepreneur Alan Maleh and tailor Ray Stowers. There's also practical advice on research for design innovation, street style, trends and forecasting and collection development. With a wealth of stunning new images and contemporary examples, new to this edition are end-of-chapter exercises to encourage design work, such as Design for Sportswear Fabrication and Tailoring for Menswear. Featured topics Historical Research for Design Innovation Counterculture Dressing Design Process Street Style Trends and Forecasting Tailoring for Menswear Collection Development Drawing for Men CAD for Menswear Menswear Portfolios Featured interviewees Lou Dalton Guy Hill and Kirsty McDougall, Dashing Tweeds Alan Maleh, Man of the World Ray Stowers, Stowers Bespoke Seung Won Hong, Fashion Illustrator Matthew Zorpas, The Gentleman Blogger

Construction is the foundation of fashion design; it takes passion and great skill to turn a two-dimensional drawing into a successful garment. *Construction for Fashion Design* guides readers through the process, teaching the theory, practical skills and techniques that they need to succeed. It leads readers through the essential stages of creating a garment, from pattern cutting and draping on the mannequin to sewing techniques and haberdashery. This fully revised and expanded second edition features insightful case studies with leading creative practitioners at the cutting edge of the fashion industry today, complete with detailed, step-by-step exercises that enable readers to contextualise their knowledge and put it into practise for the creation of their own successful projects.

"Basics Fashion Design: Fashion Drawing provides a visually oriented introduction to the subject by considering the different styles, techniques and approaches used in the fashion industry. Packed with interviews and work by talented designers and illustrators, this book will both inform and inspire you."

Styling explains how to analyse fashion collections, the importance of cultural and historical research, and the skills required to style for catalogues, advertisements and magazines.

Textiles and Fashion explores the art of creating fashion textiles, from practical processes including fibre production, dyeing and finishing, to construction techniques such as weaving and knitting.

Research is fundamental to the success of any fashion-related project and in Research and Design, you explore what research is and where to find inspiration

Textiles and Fashion explores the integration of textile design with fashion. It begins with a brief history of textiles, showing the links with technical innovation and social developments. It then focuses on the processes of textile design, including the ethical and sustainable issues around textiles today. The book also provides practical information on fibre production, dyeing and finishing techniques. Various surface treatments are explored, as well as the way in which colour and trend influences fashion and textiles. Through case studies and interviews, fashion and textile designers discuss their production processes and how they use textiles in their work. New to the second edition are exercises to help students to explore and further their knowledge of textiles and fashion.

Teaching the process of developing a fashion collection from initial design through development of product to the product's exhibition and sale, this guide is an essential resource for hopeful designers.

Basics Fashion Design 03: Construction by Anette Fischer leads the reader through the essential stages of creating a garment, from pattern cutting and draping a mannequin, to finishing and haberdashery.
