The W201 was a compact saloon designed to address both concerns about fuel economy generated by the first oil crisis in the 1970s and competition for sales from the BMW 3 Series. Many doubted that Mercedes could deliver a compact car whilst retaining their traditional qualities. But the W201 soon won them over. For here was a car that was a real Mercedes in the tradition of the time - it was just smaller. With around 200 photographs, the book features the reasons behind the need to build a new compact saloon in the 1980s. It covers the styling, engineering and specification changes introduced over the lifetime of the model; gives full technical specifications, including paint and interior trim choices and production tables and vehicle number sequences. The story of Mercedes' long and exciting struggle to win the German Touring Car Championship with the 190 is covered. There is a chapter on the special US variants and, finally, a chapter on buying and owing a 201-series Mercedes.

Nothing says summer like driving a convertible. The car without a roof has always been a symbol for luxury and laissez-faire. And it still holds true today: everybody who's anybody drives "topless." The larger four-seater convertibles in particular have always been highly

sought after--but they are difficult to build and have usually been made as coupés for this reason. Mercedes-Benz has always been a pioneer in this area. 'Mercedes-Benz: The Grand Cabrios & Coupes' gives us a peek at the long-standing partnership between Mercedes-Benz and Stuttgart-based photographer, Rene Staud. Carefully staged photos show graceful curves and precision down to the finest details that convey the company's dedication to a very special kind of driving pleasure. This volume presents the most important convertibles and related coupes from 100 years of Daimler automotive history. A special highlight is Daimler's new flagship, a convertible based on the new S-class that is being rolled out at the 2015 IAS. Even though summer eventually comes to an end, and sunny days can give way to showers, this book stands for everlasting convertible adventures. AUTHOR: Photographer Rene Staud made a breakthrough with the development of his Magicflash lighting technology; this type of surface lighting helps him greatly in his ad photos for top-shelf automakers. Staud and his team continue to develop new ways to meet the highest demands of the industry in both creativity and service. He has amassed 35 years of experience in ad photography; and has literally built the image of many companies with his photos. SELLING POINTS: \* Open this glorious photo book and experience the classic Mercedes-Benz convertibles and the newest models in such realistic detail, you'll want to touch them \* Elegantly-staged cars that made automotive history \* Breathtaking curves that make "driving topless" a delight
