3 L Mercruiser Engine Temp Sender Location 1985

my 7.4 efi mercruiser will not come up to temp. the guage stays on bottom. if u run the engine for a while and shut it off then turn the key on with the engine not running the guage will come to temp but when u start the engine it imediately cools back down. I have already changed the thermostat and sending unit. Gauge checked and works fine.

My 7.4 efi mercruiser will not come up to temp. the guage ...

Locate the engine's temperature sender. The sender is a brass fitting with a single tan-colored wire on a screw terminal. Consult your engine's service manual if you need help finding the sender. Step 8
