Almost fifty years ago the Coleman Report, widely regarded as the most important educational study of the twentieth century, found that the most powerful predictor of academic achievement is the socioeconomic status of a child's family. The second most important predictor is the socioeconomic status of the classmates in his or her school. Until very recently, the importance of this second finding has been consciously ignored by policymakers, and the national education debate has centered on trying to "fix" high-poverty schools by pouring greater resources into them, paying educators more to teach in them, or turning them into charter schools. At the local level, however, eighty school

Districts educating four million students now consciously seek to integrate schools by socioeconomic status. *The Future of School Integration* looks at how socioeconomic school integration has been pursued as a strategy to reduce the proportion of high-poverty schools and therefore to improve the performance of students overall. It examines whether students learn more in socioeconomically integrated schools—and pre-K programs—than in high-poverty institutions and explores the costs and benefits of integration programs. The book also investigates whether such integration is logistically and politically feasible, looking at the promises and pitfalls of both intradistrict and interdistrict integration programs. Finally, it examines the relevance of socioeconomic integration strategies being pursued by states and localities to the ongoing policy debates in

"A fresh, vigorous new translation of the Gospel of Mark."—The American Conservative "Professor Pakaluk provides not only a thrilling new rendering of the ancient Greek text but also provides lively scholarship in the commentary that follows his translation of Mark's sixteen chapters."—The Catholic Thing "This is a very rewarding version of Mark, and even those who have made long study of the text will find a wise and sensitive guide in Michael Pakaluk."—National Catholic Register "Pakaluk's translation and

commentary offers us a wonderful way to immerse ourselves anew..."—The B.C. Catholic "Like his translation, Pakaluk's notes do a lot to bring St. Mark and his gospel alive for us."—Aleteia The Gospel as You Have Never Heard It Before... At a distance of twenty centuries, the figure of Jesus of Nazareth can seem impossibly obscure—indeed, some skeptics even question whether he existed. And yet we have an eyewitness account of his life, death, and resurrection from one of his closest companions, the sherman Simon Bar-Jona, better known as the Apostle Peter. Writers from the earliest days of the Church tell us that Peter's disciple Mark wrote down the apostle's account of the life of Jesus as he told it to the first Christians in Rome. The vivid, detailed, unadorned prose of the Gospel of Mark conveys the unmistakable immediacy of a first-hand account. For most readers,

however, this immediacy is hidden behind a veil of Greek, the language of the New Testament writers. Four centuries of English translations have achieved nobility of cadence or, more recently, idiomatic accessibility, but the voice of Peter himself has never fully emerged. Until now. In this strikingly original translation, attentive to Peter's concern to show what it was like to be there, Michael Pakaluk captures the tone and texture of the sherman's evocative account, leading the reader to a bracing new encounter with Jesus. The accompanying verse-by-verse commentary—less theological than historical—will equip you to experience Mark's Gospel as the narrative of an eyewitness, drawing you into its scenes, where you will come to know Jesus of Nazareth with new intimacy. A stunning work of scholarship readily accessible to the layman, *The Memoirs of St. Peter*
