Modelling and Demonstrating – Bradford

An initial GeoGebra tutorial session features 'real life' examples such as mathematical modelling (ta) and visualisation from photographs of patterns and structure in flowers and architecture; exercises such as "math aerobics" where students model algebraic functions kinaesthetically; and data analysis and exploration such as from astronomy (Kepler's 3rd law) and athletic performance (Usain Bolt's 100m sprints). Realistic examples such as these, or from students' previous work ...

Mathematical Modelling Techniques (Dover Books on Computer ...

Modelling is an important part of the scientific process. For example, climate change models allow scientists to make predictions and test theories. In this way models are forms of explanations (Hardman, 2017) Models help students understand abstract scientific ideas that cannot always be seen - these are representational models
