Medical Jurisprudence and Toxicology for India covers some essential details and practical aspects of medical jurisprudence and toxicology. This book is organized into two part encompassing 34 chapters. The opening chapters of Part I deal with legal procedure in criminal courts, physical evidence of the crime, autopsy, exhumation, and some medico-legal practices. Considerable chapters are devoted to other aspects of legal medicine, including determination of death causation, legitimacy of evidence, incident of rape and unnatural offenses, miscarriage, infanticide, insanity, and the privileges of medical men. Part II focuses on the toxicological aspects. This part emphasizes the medico-legal aspects of some classes of poisons, such as corrosive, irritant, neurotic, cerebral, spinal, cardiac, and peripheral poisons. This book will prove useful to medical college students.

A Textbook of Medical Jurisprudence and Toxicology, Sixth Edition discusses medico-legal points concerning the different causes of death, examination of evidence, and crimes that merit medical attention and advice. The author reviews the legal procedures in criminal courts of medical jurisprudence, including the inquest procedures, the difficulties encountered in detecting crime, medical evidence, rules for presenting evidence, and the powers of criminal courts. The post-mortem examination concerns the external and internal examination of the deceased to establish identity (if unknown), to determine time and cause of death. Under the written orders of the court, an exhumation can take place when suspicions of foul play arises after death. The author discusses death in terms of somatic (physical) or molecular (tissues and cells dying individually after vital organs have stopped functioning). The book also describes in detail the primary modes of dying, namely, syncope, asphyxia, and coma. The book explains the medico-legal aspects of injuries, pregnancy, legitimacy, rape, miscarriage, infanticide, and insanity. This book is intended for medical students, but can also benefit students in law courses, and practitioners of legal jurisprudence and of the medical sciences.

This is a thoroughly revised, updated and enlarged edition of the popular student-friendly textbook on the subject. Now in full colour, with the addition of a large number of colour pictures and introduction of new literature on the concerned law as well as toxic agents, it is the favourite textbook for MBBS students, as well as a handy reference for the professionals in FMT.
