The last decade has seen growing interest in using aggressive source remediation technologies to remove contaminants from the subsurface, but there is limited understanding of (1) the effectiveness of these technologies and (2) the overall effect of mass removal on groundwater quality. This report reviews the suite of technologies available for source remediation and their ability to reach a variety of cleanup goals, from meeting regulatory standards for

There’s nothing Valerie Kwon loves more than making a good sale. Together with her cousin Charlie, they run V&C K-BEAUTY, their school’s most successful student-run enterprise. With each sale, Valerie gets closer to taking her beloved and adventurous halmeoni to her dream city, Paris. Enter the new kid in class, Wes Jung, who is determined to pursue music after graduation despite his parents’ major disapproval. When his classmates clamor to buy the K-pop branded beauty products his mom gave him to “make new friends,” he sees an opportunity—one that may be the key to help him pay for the music school tuition he knows his parents won’t cover... What he doesn't realize, though, is that he is now V&C K-BEAUTY’s biggest competitor. Stakes are high as Valerie and Wes try to outsell each other, make the most money, and take the throne for the best business in school—all while trying to resist the undeniable spark that’s crackling between them. From hiring spies to all-or-nothing bets, the competition is much more than either of them bargained for. But one thing is clear: only one Korean business can come out on top.

Marketing visionary Martin Lindstrom has been on the front line of the branding for over twenty years. In Brandwashed, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned money. Lindstrom reveals eye opening details such as how advertisers and marketers target children at an alarmingly young age (starting when they are still in the womb), what heterosexual men really think about when they see sexually provocative advertising, how marketers and retailers stoke the flames of public panic and capitalize on paranoia over diseases, extreme weather events, and food contamination scares. It also presents the first ever evidence to prove how addicted we are to our smartphones, and how certain companies (like the maker of a very popular lip balm), purposely adjust their formulas in order to make their products chemically addictive, and much, much more. Brandwashed is a shocking insider's look at how today's global giants conspire to obscure the truth and manipulate our minds, all in service of persuading us to buy.
