Ultimately, free responses are a better assessment of deeper understanding than multiple choice questions cannot provide, because they are in no way prompting you towards the correct answer. The answer that you produce to a free response question is completely student generated and cannot use “guessing” or process of elimination.

Multiple Choice Questions : With Types and Examples

A multiple-choice question is a type of questionnaire/survey question that provides respondents with multiple answer options. Sometimes called objective response questions, it requires respondents to select only correct answers from the choice options. MCQs are mostly used in educational testing, customer reviews, market research, elections, etc.
