Part of DK's successful My First board book series, My First Shapes features images with clear labels and was created with a preschooler's stage of educational development in mind. Preschoolers can learn about all different shapes in My First Shapes, an informational board book featuring images of triangles, rectangles, stars, hearts, and more, and including a toy train scene with all the My First Shapes called out. The bold, beautiful images are labeled clearly, promoting early learning and language skills, and the pages are filled with the distinctive, iconic design of DK's My First series. Made with toddlers ages 0-2 in mind, the book's sturdy format is ideal for small hands to hold and carry. Whether read alone or with an adult, My First Shapes encourages independent learning as preschoolers get to know all the basic shapes.

A little boy who loves to find shapes in nature grows up to be one of America's greatest architects in this inspiring biography of Frank Lloyd Wright. When Frank Lloyd Wright was a baby, his mother dreamed that he would become a great architect. She gave him blocks to play with and he learned that shapes are made up of many other shapes. As he grew up, he loved finding shapes in nature. Wright went on to study architecture and create buildings that were one with the natural world around them. He became known as one of the greatest American architects of all time.

Two new titles in this popular split-page board-book format from Eric Carle are full of favorite foods and bright animals, and are lots of fun for young children. Full color.

Sam Bear invites his friends to his house for a Halloween party and an unforeseen problem results when everyone brings popcorn to eat.

Introduces basic shapes such as circles and squares, with pictures of objects that are in those shapes, such as hoops and blocks.

Have you learned your colors and shapes? Now it's time to learn patterns! Stripes, polka dots, plaid, chevron, and more are featured in this first-ever patterns concept book that provides readers with the vocabulary to name what they see in the world around them. The ten most prevalent patterns are presented first as a single element (This is a circle ...), then as a pattern (... a lot of circles make polka dots!). Conceived by educators and illustrated in vivid candy-colored hues, this pitch-perfect introduction to patterns will engage the artistic, mathematical, and linguistic parts of every young child's mind.

This whimsically illustrated board book offers a delightful A-to-Z overview of modern design icons for the toddler set. Parents who appreciate architecture and modern design will get a kick out of sharing their passion with little ones. From Frank Lloyd Wright's Fallingwater to Knoll furniture to Noguchi sculptures, Baby's First Eames makes timeless structures and styles fun and accessible for aesthetes of all ages.

A Notable Social Studies Trade Book for Young People \* A NSTA/CBC Best STEM Book Frank Lloyd Wright, a young boy from the prairie, becomes America's first world-famous architect in this inspirational nonfiction picture book introducing organic architecture -- a style he created based on the relationship between buildings and the natural world -- which transformed the American home. Frank Lloyd Wright loved the Wisconsin prairie where he was born, with its wide-open sky and waves of tall grass. As his family moved across the United States, young Frank found his own home in shapes: rectangles, triangles, half-moons, and circles. When he returned to his beloved prairie, Frank pursued a career in architecture. But he didn't think the Victorian-era homes found there fit the prairie landscape. Using his knowledge and love of shapes, Frank created houses more organic to the land. He redesigned the American home inside and out, developing a truly unique architecture style that celebrated the country's landscape and lifestyle. Author Barb Rosenstock and artist Christopher Silas Neal explore the early life and creative genius of architect Frank Lloyd Wright, highlighting his passion, imagination, and ingenuity.
