record-breaking year among the stars. A autobiography of NASA astronaut Scott Kelly! Scott wasn't sure what he wanted to be when he grew up. He struggled in school and often got in trouble with his twin brother, Mark. Then one day Scott discovered a book about test pilots and astronauts that set him on a new path. His new focus led him to fly higher and higher, becoming first a pilot and then an astronaut, along with his brother--the first twin astronauts in history. But his greatest accomplishment of all was commanding the International Space Station and spending nearly a year in space, which set the record for the longest spaceflight by an American. This story of an ordinary boy who grew up to do extraordinary things will amaze and inspire young readers.

This nonfiction picture book is a children's version of NASA astronaut Jerry L. Ross's autobiography, *Spacewalker: My Journey in Space and Faith as NASA's Record-Setting Frequent Flyer*, designed for ages 7-12. Told in friendly first-person narration, it represents how Ross followed his dream from rural 1950s northern Indiana to Purdue University and then outer space. The thirty-two-page book is illustrated with personal photos and memorabilia. It is formatted into twenty-three narratives organized in chronological order illustrating events and experiences in Ross's life. Pages attractively interweave photos and text while prompts encourage readers to engage in in the story. Ross possessed specific character traits that helped him make choices and overcome obstacles as he struggled against the odds to realize his dream: curiosity, persistence, and believing in oneself. As the story unfolds and readers

begin to make personal connections with Ross, his approach to problem solving and working through setbacks provides a powerful example for children. Content area concepts are integrated throughout the story, including but not limited to science, technology, engineering, math, visual literacy, financial literacy, geography, flight, and the race to space. Gravity, for example, is a major theme illustrated within the content of the story. Online guides for teachers using the book in a classroom setting (third to fourth grade recommended) are linked to throughout. A map of the United States on the inside front cover invites children to follow the path of Ross's journey from Crown Point, Indiana, to Kennedy Space Center. A timeline on the inside back cover compares and contrasts benchmark events in Ross's life and career with important events in flight and space travel history. The inspiring memoir for young readers about a Latina rocket scientist whose early life was transformed by joining the Girl Scouts and who currently serves as CEO of the Girl Scouts of the USA. A meningitis outbreak in their underprivileged neighborhood left Sylvia Acevedo's family forever altered. As she struggled in the aftermath of loss, young Sylvia's life transformed when she joined the Brownies. The Girl Scouts taught her how to take control of her world and nourished her love of numbers and science. With new confidence, Sylvia navigated shifting cultural expectations at school and at home, forging her own trail to become one of the first Latinx to graduate with a master's in engineering from Stanford University and going on to become a rocket scientist at NASA's

In this inspiring coming-of-age memoir, a world-renowned astrophysicist emerges from an impoverished childhood and crime-filled adolescence to ascend through the top ranks of research physics. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY KIRKUS REVIEWS □ “You’ll encounter one extraordinary turn of events after another, as the extraordinary chess player, puzzle solver, and occasional grifter works his way from grinding poverty and deep despair to worldwide acclaim as a physicist.”—Bill Nye, CEO of The Planetary Society

Navigating poverty, violence, and instability, a young James Plummer had two guiding stars—a genius IQ and a love of science. But a bookish nerd is a soft target, and James faced years of bullying and abuse. As he struggled to survive his childhood in some of the country’s toughest urban neighborhoods in New Orleans, Houston, and LA, and later in the equally poor backwoods of Mississippi, he adopted the persona of “gangsta nerd”—dealing weed in juke joints while winning state science fairs with computer programs that model Einstein’s theory of relativity. Once admitted to the elite physics PhD program at Stanford University, James found himself pulled

between the promise of a bright future and a dangerous crack cocaine habit he developed in college. With the encouragement of his mentor and the sole Black professor in the physics department, James confronted his personal demons as well as the entrenched racism and classism of the scientific establishment. When he finally seized his dream of a life in astrophysics, he adopted a new name, Hakeem Muata Oluseyi, to honor his African ancestors. Alternately heartbreaking and hopeful, *A Quantum Life* narrates one man's remarkable quest across an ever-expanding universe filled with entanglement and choice.

When fourteen-year-old Katerina Karaindrou was diagnosed with a rare and malignant form of bone cancer in January of 2018, she felt broken, trapped in fear and pain. Through a conversation with her doctor before starting chemotherapy, she embarked on a journey to discover how she could be brave in the midst of despair. Little did she know, the answer was hidden in her story. In *Brave in the Broken*, Katerina narrates her story of fighting cancer at fourteen and finding healing, purpose, and peace along the way. She tells a story of agonizing pain and suffering, yet one full of hope and meaning. She chronicles how walking on a path of faith and gratitude helped her defy the impossible and fight. *Brave in the Broken* follows Katerina's journey as she finds the powerfully impactful miracles that she experienced during the suffering. She discovers how she can overcome despair through the choice to stay brave in the face of fear and affliction.

"I am about to share here a story about stars that dance. . . . If the very thought of seeing stars dance piques your curiosity at some deep level of your soul, then pay attention to what follows, for the walk to the Field of Stars, to Santiago de Compostela, is a journey that has the power to change lives forever." -- from the introduction "Pilgrimage" is a strange notion to our modern, practical minds. How many of us have walked to a distant holy place in order to draw nearer to God? Yet the pilgrimage experience is growing these days in various parts of the world. Seeking to take stock of his life, Kevin Codd set out in July 2003 on a pilgrimage that would profoundly change his life. *To the Field of Stars* tells the fascinating story of his unusual spiritual and physical journey on foot across Spain to Santiago de Compostela, the traditional burial place of the apostle James the Greater. Each brief chapter chronicling Codd's thirty-five-day trek is dedicated to one or two days on the road. Codd shares tales of other pilgrims, his own changes of perspective, and his challenges and triumphs along the way -- all told with a disarming candor. Seen through the eyes of a Catholic priest who honors the religious worldview that originally gave rise to these medieval odysseys, "pilgrimage" comes to life and takes on new meaning in these pages.

Deborah Santana is best known for her marriage to music icon Carlos Santana—a thirty-year bond that endures to this day. But as a girl growing up in San Francisco in the 1960s, daughter of a white mother and a black father—the legendary blues guitarist Saunders King—her life was charged with its own drama long before she married. In this beautiful,

haunting memoir, Deborah Santana shares for the first time her early experiences with racial intolerance, her romantic involvement with musician Sly Stone and the suffering she endured in that relationship, and her adventures in the freewheeling 1960s. Yet it is her spiritual awakening that is the core of this story. The civil rights movement was the foundation of her growth, the Woodstock era the backdrop of her love with Carlos. The couple was drawn indelibly together by a search for truth and spirituality, but while yearning to be filled with God's light, they were pulled dangerously toward a manipulative cult. They eventually disengage themselves from the guru and reclaim control of their lives, putting their love for each other before the cult's increasingly strenuous demands. *Space Between the Stars* is a moving account of self-discovery, rendered in raw, beautiful prose, by a woman whose heart has remained pure even in times of despair. As Deborah Santana talks frankly about her lifelong fight against racial injustice and her deep-seated loyalty to her family, ultimately it is the struggle to remain a spiritual and artistic force in her own right, in the shadow of one of the world's most revered musicians, that shines through as her most indomitable pursuit.

A confessional, uplifting memoir from the beloved YouTube personality. It's not where you begin that matters. It's where you end up. Twenty-three year old Joey Graceffa has captured the hearts of millions of teens and young adults through his playful, sweet, and inspirational YouTube presence (not to mention his sparkling eyes and perfect hair). Yet, Joey wasn't

always comfortable in his skin, and in this candid memoir, he thoughtfully looks back on his journey from pain to pride, self-doubt to self-acceptance. To his fans, Joey is that best friend who always captures the brighter side of life but also isn't afraid to get real. In the pages of his first book, he opens up about his years of struggling with family hardships and troubles at school, with cruel bullying and the sting of rejection. He tells of first loves and losses, embarrassing moments and surprising discoveries, loneliness, laughter, and life-changing forks in the road, showing us the incalculable value of finally finding and following your true passion in this world. Funny, warm-hearted, and inspiring, Joey Graceffa's story is a welcome reminder that it's not where you begin that matters, but where you end up.

"A large, lavishly inventive novel . . . an American descendant of *The Arabian Nights* . . . erudite and artful entertainment."—*The New York Times Book Review*

At a Manhattan planetarium in 1965, ten-year-old Enzo is whisked away from his young adoptive aunt, Mala. His abductor turns out to be a blood relative: his great-uncle Junius Samax, a wealthy former gambler who lives in a converted Las Vegas hotel surrounded by a priceless art collection and a host of fascinating, idiosyncratic guests. In Samax's magical world, Enzo receives a unique education and pieces together the mystery of his mother's life and the complicated history of his adoption. Back in New York, Mala only knows that Enzo has disappeared. After a yearlong search proves fruitless, she enlists in the Navy Nursing Corps and on a hospital ship off Vietnam falls in love with a wounded B-52 navigator,

who disappears on his next mission. Devastated again, Mala embarks on a restless, adventurous journey around the world, hoping to overcome the losses that have transformed her life. Fusing imagination, scholarship, and suspense with remarkable narrative skill, Nicholas Christopher builds a story of tremendous scope, an epic tale of love and destiny, as he traces the intricate latticework of Mala's and Enzo's lives. Each remains separate from each other but tied in ways they cannot imagine—until the final miraculous chapter of this extraordinary novel. "A writer of remarkable gifts."—The Washington Post Book World "This labyrinthine novel . . . is animated by an encompassing lust for beauty."—The New Yorker "[Nicholas] Christopher is North America's García Márquez; Borges with emotional weight. . . . This is one of those rare books that, by connecting the stars, catches you in its web."—The Globe and Mail Includes an excerpt of Nicholas Christopher's Tiger Rag
